## Nameoki Rd. Widening In State's '63 Program

### Final Plans Under Study For Construction North Of Madison Avenue

Prospects are bright for construction of added traffic lanes for Nameoki road in 1963; it was announced Friday at the district office of the state highway department.

The portion of the project from Madison avenue north to the city limits on Route 3 is again included in the state's highway future work program, announced at the end of each year. The 1963 program was received Friday at the district highway office.

While the Nameoki road project is the major work slated in the Quad-Cities, the 1963 highway program totals nearly \$15,000,000 in Madison county and includes \$450,000 for acquisition of right-of-way for the riverfront road (Federal Aid Route 151) from Pontoon road south to Broadway in Venice. Also, 4 1/2 miles of Broadway in Venice from McKinley avenue to the north city limits is to be resurfaced at a cost of \$25,000.

The Nameoki road project was first included in the 1960 announcement by the state, but work on major interstate highway was given priority as the months and years went by, it was explained.

However, engineers at the French Village district office assured the Press-Record the \$270,000 project for Granite City should be started by May or June of next year.

Construction plans have been completed by the city engineer.

(Continued on page 2, col. 1)

## BIRTHS

Births recorded at St. Elizabeth Hospital:

### GIRLS

Mr. and Mrs. Joseph Linhart, 2714 Washington avenue, Dec. 27, Josephine Ann, eight pounds, four ounces.  
Mr. and Mrs. Edward Schilling, Route One, Dec. 28, Eddie Noel, six pounds, five ounces.  
Mr. and Mrs. Hurd Betty, 1918 Grand avenue, Dec. 28, Christy, seven pounds, seven ounces.  
Mr. and Mrs. Ralph Fuxy, 1922 Third street, Madison, Dec. 28, Deborah Diane, six pounds 11 ounces.  
Mr. and Mrs. James Godwin, Collinsville, Dec. 29, Katherine Anna, six pounds, one ounce.  
Mr. and Mrs. Frank Frandsen, 4208 Old Alton road, Dec. 29, Sheila Renee, seven pounds, six ounces.  
Mr. and Mrs. Robert Long, 41 Villa drive, Dec. 29, Dana Renee, six pounds, nine ounces.  
Mr. and Mrs. Charles Herman, 1909 Pontoon road, Dec. 30, Jennifer Francis, eight pounds, five ounces.  
Mr. and Mrs. Leonard Gub, 2811 East 25th street, Dec. 30, Angela Len, five pounds, two ounces.  
Mr. and Mrs. Frederick Seifried, 1617 Courtenay blvd., Dec. 30, Sheila Renee, six pounds, eight ounces.

### BOYS

Mr. and Mrs. Jack Taylor, 1600 Fifth street, Madison, Dec. 27, Bradley Houston, six pounds, 14 ounces.  
Mr. and Mrs. William Abbott, 4808 Mueller avenue, Dec. 27, Rockford Robert, eight pounds, three ounces.  
Mr. and Mrs. James Shewell, Jr., 2435 Ohio avenue, Dec. 27, Thomas Daniel, eight pounds, five ounces.  
Mr. and Mrs. Thomas Harmon, 10 Briarcliff, Dec. 28, Randy Scott, four pounds, 15 ounces.  
Mr. and Mrs. Everett Cottrell, 2828 Sunset drive, Dec. 28, Chris Gieff, five pounds, nine ounces.  
Mr. and Mrs. Robert Imboden Jr., 2417a Grand avenue, Dec. 28, Jeffrey John, seven pounds, 11 ounces.  
Mr. and Mrs. Jimmy Clayman, 2431 Illinois avenue, Dec. 29, James Howard II, eight pounds, three ounces.  
Mr. and Mrs. Charles Connor, 1719 Spruce street, Dec. 29, Jeffrey Charles, 10 pounds, two ounces.  
Mr. and Mrs. Lester McCoy, 3048 Nameoki drive, Dec. 29, Timothy George, six pounds, eight ounces.  
Mr. and Mrs. Arthur Rossi, Route One, Dec. 29, Mario Joseph, six pounds, eight ounces.

## Bi-State Starts Wharf Work; Joins Air Pollution Study

Preliminary work has started on the expansion of the Bi-State Development Agency wharf on the Chain of Rocks Canal. It was reported at Thursday afternoon's meeting of commissioners in St. Louis.

The board voted to participate in an interstate air pollution study with other agencies; and heard a report that progress is being made toward issuance of revenue bonds for the purchase of 14 area bus firms to establish a bi-state mass transit system. The bulk issue is to total \$25,000,000.

The air pollution study is being conducted by the metropolitan area by the U. S. Public Health Service Agency in the two states also are to take part. Test piling is being driven at the local harbor and \$28,857 bid contract awarded Dec. 13 to Vollmar Bros. Construction Co., St. Louis.

Upon completion, the wharf and terminal will have 900 feet of usable space and an additional 700 feet for mooring facilities.

The existing Bi-State dock and warehouse were constructed at a cost of \$1,500,000 and financed through revenue bonds. However, no bonds are being issued for the expansion. Bi-State is borrowing funds from Granite City Steel Co. to finance the work.

The work is to consist of 310 feet of steel sheet pile walls, and fill extension of tracks, and other rail connection, timber dolphins for mooring and providing facilities for handling with hoppers and conveyors.

The wharf provides facilities for the city engineer, and rail and truck.

Transit Funds In 60 Days

Investment brokers reported over the weekend that funds should be available within 60 days for the Bi-State Agency to begin operation of the unified mass transit system.

Among the 14 bus firms to be purchased is Community Coach Co. here. Col. Smyser said the commissioners have not set a date for the start of operation of the unified system. The financiers listed include paving of Mayville road from Chain of Rocks road to the Granite City Steel Co. plant.

Trocker was authorized to advertise for bids on four new trucks for the highway department and to purchase repair parts costing about \$3000 for a tractor.

Supervisor William B. Stobbe of Alton introduced a proposal to place county employees under a merit system of hiring and promotion. He said he wanted all board members to have an opportunity to study the act, and said action could come at a later meeting. Chairman Haller referred the matter to the judicial committee.

### Investment Report

State Atty. Gen. H. Mudge Jr. reported to the board on legality of investing funds tied up in tax protest. He said investment of such funds is provided for by law, with the county to receive all interest. Mudge said County Auditor John L. Kravynak requested an opinion.

(Continued on page 6, col. 3)

## Supervisors Ok County Budget of \$2,929,035

### Boost Monthly Fee At Nursing Home To \$155; Expect \$75,000 Deficit

A \$2,929,035 budget and appropriations ordinance to finance Madison county government in 1963 was approved by the county board of supervisors Friday at Edwardsville. The ordinance is expected to leave the county about \$75,000 in debt at the end of the year.

Leslie Frenn, chairman of the finance committee, told board members an unbalanced budget obligates all county officials and employees to hold off but essential fund requests. He said requests from departments amounting to \$175,000 to \$200,000 had to be excluded from the budget.

In other action, the board approved a handbook of .005 cents per \$100 valuation for a Civil Defense fund and .001 cents per \$100 valuation for a museum, voted to seek bids on a new sheriff's auto and four new trucks, called for bids on a remodeling project at the county jail and raised the monthly patient cost at the county nursing home from \$135 to \$155.

Chairman Gus Haller commended the finance committee. "I'm surprised they can get this close to balancing it," he said.

Haller said the committee was working under a handicap by not knowing how much the assessed valuation of Madison county property will be increased next year. The quadrennial assessment begins Jan. 1, and will be the basis for tax collections.

In calling for the special tax to support the county museum, Frenn said the Madison County Historical Society proposes to secure new quarters for the museum, now located in the courthouse. Added costs of maintenance will be offset by availability of the space now used, he said.

Joseph Trocker, Chouteau township supervisor and chairman of the roads and bridge committee, presented the county highway department's long-range plan for major projects during the next five years. Projects listed include paving of Mayville road from Chain of Rocks road to the Granite City Steel Co. plant.

Trocker was authorized to advertise for bids on four new trucks for the highway department and to purchase repair parts costing about \$3000 for a tractor.

Supervisor William B. Stobbe of Alton introduced a proposal to place county employees under a merit system of hiring and promotion. He said he wanted all board members to have an opportunity to study the act, and said action could come at a later meeting. Chairman Haller referred the matter to the judicial committee.

### Investment Report

State Atty. Gen. H. Mudge Jr. reported to the board on legality of investing funds tied up in tax protest. He said investment of such funds is provided for by law, with the county to receive all interest. Mudge said County Auditor John L. Kravynak requested an opinion.

ENGULFED BY FLAMES is one of three West Madison homes destroyed by fire Friday afternoon. Ruins of a house in which a young boy perished are visible at the right of the photograph. Four families were left homeless.

## Burglars Loot Shop Of TV Sets Worth \$700

### Seven Other Businesses Places Hit; Auto Stolen, Wallet Theft In Venice

Thieves gained their biggest loot at local business places over the past four days, stealing \$700 worth of television sets from a Granite City shop, a \$175 tape recorder from another.

Two \$300 thefts were reported at Madison firms, and a futile safebreaking in Granite City also was reported. Other thefts included a home entry in Venice, two amplifiers stolen from a Granite City tavern, an auto, lost from a parked car and the loss of outdoor Christmas lights.

Fast Thieves Steal TV Sets  
An appliance store burglary, believed to have taken place in a matter of seconds about daybreak Friday, resulted in a loss of portable television sets worth \$700 from Supreme Radio & Appliance, 2109 Johnson road.

Lloyd Harlow, proprietor, discovered the break-in about 8:30 a.m. when he found the glass in the front door had been smashed. Police said it was intact when he found the glass in the store was only three degrees below normal, even though the front door glass was gone. The thieves took only sets that had handles, and no attempt was made to open the cash register or to take portable radios and TV sets without handles.

\$175 Tape Recorder Stolen  
Theft of a \$175 tape recorder from Johnson's Music Shop, 1920 Edison avenue, was reported to police Friday evening.

### Grand Cafe Entered

A thief who ransacked the refrigerator took nothing from Grand Cafe, 1413 Twentieth street, Thursday night. Entry was gained by forcing a rear window.

A burglar obtained \$30 to \$40

(Continued on Page 2, Col. 4)

## Injury Toll 92 For Month, Within 2 of All-Time High

With 21 persons hurt in 25 Quad-City area auto crashes during the weekend, the December injury toll stands at 92, one short of the 93 recorded in December a year ago and two short of the all-time monthly high of 94 persons hurt in August 1960.

Whether a new monthly injury mark is set will depend on the pre-midnight New Year's Eve traffic.

Four Hurt On McCannibridge  
Four injuries resulted from a collision at 10:15 p.m. Thursday at Third street and McCannibridge avenue involving the car of Billy Joe Smith, 22, of 2630 Sikeen street, Madison, and the northbound car of William G. Skinner, 24, of South Gate, Ky.

Smith suffered cuts to the face and left arm and contusions to the back and chest, and was hospitalized at St. Elizabeth Hospital, and his passenger, James Moad, 20, of 1900a Benton street, was admitted for treatment.

Skinner sustained a broken upper right front tooth and cuts and bruises on the left knee. His wife, Georgianne, 24, also received bruises in the crash. Other passengers in the Skinner auto were their son, Jeffrey, three years old, Pat Moss, 15, of Sixth street, Madison, and Kathy Smyk, 16, Madison.

An ambulance took the injured to the hospital, and both cars were towed away. The Smith car with front end damage and the other with the left side demolished. Smith was charged with reckless driving, being released on his driver's license to return for a hearing Jan. 5.

Skinner said the Smith auto was passing another car and struck the curb on the right, next swerving to the left and into the wrong lane. Skinner also swerved but was unable to avoid being struck. Smith told police he was blinded by oncoming lights.

### Auto-Train Crash

Mrs. Mae Martin, 38, of 617 Fleming avenue, Mitchell, was hospitalized overnight for injuries suffered Friday evening in an auto-train crash at the Alton & Southern Railroad crossing at Mitchell.

She was treated for cuts and bruises to her face and injuries to the abdomen. State troopers said she was traveling west on U.S. Bypass 66-40 and struck the locomotive about 5:30 p.m.

## Fire Fatal To Madison Child, 20 Months Old

### Business Forecast In Today's Issue

"Business Review and Forecast," an analysis of 1962 and a report on prospects for 1963, is published on Pages Nine, 10, 11 and 12 of today's issue, which is the last of the year.

The fourth annual Press-Record forecast section, it is the largest yet assembled, occupying three and three-quarters pages.

Guest authors are leaders in retail trade, industry, commerce, transportation, utilities, agriculture, real estate, finance, securities, government, county and regional planning and port development.

### \$313,277 Low Bid By St. Louis Firm For Post Office

Contracts are being prepared for a St. Louis firm to build Granite City's new post office at 24th street and Madison avenue, it was announced Saturday by Architect John Hansmeyer of Belleville. Construction is expected to be started in January.

The low bid of \$313,277 was submitted by J. E. Williams Construction Co. Five bids were opened Friday evening at the office of the developer, Lyle S. Woodcock of the Park Hills Investment Co., St. Louis.

Other bidders were: H. C. Morrow Co., Belleville, \$315,727; C. H. Sternberg Co., \$324,522; General Contracting Co., \$333,860; and M. H. Wolfe Co., \$337,740.

### Levee Project Bid Openings Postponed

Bid openings on sections three and four of a trunk sewer line in Cahokia, planned as part of the East Side Levee and Sanitary District's pollution abatement system, have been postponed indefinitely. A. J. Kraemer, chief engineer for the district, said this morning.

Bids on section three of the project in Cahokia had been due last week. Bids on section four are due the first week of January.

Kraemer said bid openings have been postponed until the status of an injunction appeal by the Granite City's citizens' committee, a temporary injunction halting the sale of \$1,390,000 in revenue bonds to cover the cost of the project was granted by the Edwardsville circuit court, and was voided four days later.

The court set Jan. 3 as a deadline for the filing of an appeal. Kraemer said the levee board has no meetings set until its regular monthly gathering on Wednesday, Jan. 9.

### 22 WITHOUT A QUAD-CITY TRAFFIC DEATH

Inviting you to old fashion REVIVAL at PENTECOSTAL ASSEMBLY 2144 E. 24th St. at Bromley Granite City, Illinois Now In Progress through Jan. 13th. Services 7:30 Nightly with Evangelist: George Hammett

Rev. Hammett is an outstanding, anointed Gospel Preacher, who will be blessed. A special watch night Jubilee service is planned. Start the year off right, plan now to come.

Pentecostal Assembly is the end of your search for a friendly Church.

Rev. Harold Maynard, Pastor

### Left With Brothers; Seek Origin Of Blaze Ruining Three Homes

An investigation is being made to determine the cause of a fire which took the life of a 20-month-old boy, Rodney Crawford, and left 11 persons homeless Friday in West Madison.

Two buildings one a two-unit dwelling, were burned to the ground and a third was gutted. The blaze was fought for more than an hour by Madison firemen, who found the body of the child on a bed in the ruins of a rear bedroom.

Possibility of the fire being started by a child, such as while playing with matches, is being studied. An inquiry is to be conducted by Deputy Coroner Francis Lahey, and Madison authorities are questioning witnesses, including a truck driver who was delivering coal to one of the homes, at 703 Bissell street.

There was a gas furnace in the basement of the double home at 703 Bissell street, but the fire apparently originated in the center area of the main floor. No adults were in the house at the time.

### Seven Children In Family

Homes destroyed by the blaze at 703 Bissell, owned by Ernest Robinson and occupied by Mrs. Arthur A. Wain, and 705 Bissell, owned by Mr. and Mrs. Clyde Reed, where an apartment was used by Mrs. Reed's elderly mother and the other by Mrs. James Crawford and her seven children.

A house at 707 Bissell, occupied by Mr. and Mrs. Reed, also stood standing but was badly gutted.

James Crawford Jr., 10, told the Press-Record he was in the home with his brothers, Marshall, six years old, Tony, two and a half, and Rodney, two. They were able to escape but could not save the youngest boy.

### Baby Left With Neighbors

Stanley, eight, and Ava, four, were not at home. Mrs. Crawford had gone to pick up food commodities and left three-month-old Donna Marie with a neighbor, Mrs. Pearl Pipes, 717 Bissell street, said Mrs. Crawford.

The 10-year-old said the fire may have come from the other end of the house, but firemen said they believe it originated in the Crawford apartment.

Hundreds of spectators gathered to watch the blaze. Firemen were able to pick up food commodities and left three-month-old Donna Marie with a neighbor, Mrs. Pearl Pipes, 717 Bissell street, said Mrs. Crawford.

SHARPLY SILHOUETTED against roaring flames of a fire which was fatal to a year-old boy, a utility pole and barren trees are mute witnesses to the tragedy. A railroad crossing is shown in the foreground, and spectators can be seen lining the 700 block of Bissell street, West Madison, at right. The Lee Wright housing project is visible in the background.

Press-Record Staff Photographers

# **MORE ABOUT** **Nameoki Rd. Widening** (Continued from Page 1.)

ing staff and are in the hands of the state highway department for final approval.

**W. Ponton Widening**

Original plans for widening altered during the past summer, when the state decided West Ponton road between Nameoki road and the present four-lane county roadway also should be widened to four lanes at a cost of about \$75,000, to be financed by the city with motor fuel tax funds. The city also is to pay through MFT funds 25% of the cost of right-of-way acquisition along Nameoki road.

Edw. Alms, design engineer, said appraisals of property needed for the widening of Nameoki road, north of Madison avenue, should be completed by the end of January or early in February.

The state then will call upon the city to aid in negotiations for acquiring the property. Work on the plans for widening Nameoki road south of Madison avenue, also are in the final stages of completion, but it is not expected that construction will be started in 1963.

Additional right-of-way for the construction of two additional traffic lanes north of Madison avenue is needed only at three intersections—Madison avenue, Fehling road and Ponton road. All other right-of-way will take up the strip of property on which the old Alton-St. Louis trolley tracks were located.

Electric signals at the intersections and the added two traffic lanes, which will be in operation by the end of the year, are expected to relieve congestion on the heavily-travelled thoroughfare. The city now is operating portable, battery signal lights on Nameoki road at the Fehling and the Ponton road intersections.

Engineer Alms said the lettering of construction contracts will be carried out as soon as the right-of-way is cleared.

"This will require the razing of some buildings at the intersections," he added.

**Work On Highways**

In this area, the state will continue with work on Interstate Route 270 which goes through Mitchell, and on Route 111.

An amount of \$700,000 is included for steel fabrication for the Interstate 270 Mississippi River bridge and \$1,814,000 for a bridge over the Chain of Rocks canal.

## **NAACP To Install Officers Wednesday**

The new officers of the Madison, Ill. Branch of the National Association for the Advancement of Colored People will be installed in ceremonies to be held at Mt. Nebo Baptist Church, 800 Jefferson avenue, Madison, on Wednesday evening.

The new officers are Rev. Edw. Jennings, president; Alex. McAfee, first vice-president; The Rev. David E. Nyberg, second vice-president; Mrs. Gertrude Young, treasurer; Miss Dorothy Henry, secretary; Mrs. Curlee Lee Davis, assistant secretary; and Thomas Weston and Hugh Hamilton, board members.

The choir of the Bethel A.M.E. Church and the Mt. Nebo Baptist Church will sing at the ceremonies. The Rev. Fred H. Oliver, Bethel A.M.E. Church pastor, will be master of ceremonies. The scripture lesson will be read by The Rev. L. C. Calmes, Friends Church, Madison, and The Rev. Nyberg, St. Bartholomew's Episcopal Church will be the soloist.

The Rev. W. E. Whorton, Greater St. Luke's A.M.E. Church of East St. Louis, will be the installing officer. The Rev. Leroy Henry, associate pastor at Quinn Chapel, A.M.E. Church, Madison, and Mrs. Thomas Weston will be in charge of refreshments.

The Rev. Van D. Covington, pastor, Quinn Chapel, was chairman of the installation arrangements.

## **Ray Dennis, Madison, Dies; Retired Engineer**

Ray E. Dennis, 71, of Apt. 13, Greater Homes, Madison, died at 1:45 a.m. yesterday at St. Elizabeth Hospital after a 10-month illness. He had been in the hospital eight hours.

Mr. Dennis was a retired stationary engineer for the Celotex Corp. He retired seven years ago after working for the firm for 35 years. He was born at Vernon, and had been a resident of Venice 35 years and of Madison 10 years.

Survivors include his wife, Dorothy; two sons, Harvey, Dennis of Granite City, and Herbert, Dennis of Madison; daughter, Mrs. Marvin (Wilma) Cope of Madison; two brothers, Herbert of Sesser and Allison of Madison; and four grandchildren.

Funeral arrangements appear in the obituary column.

## **Stray Dog Damages Apartment Here**

A dog was blamed for vandalism in the apartment of Mrs. Yang Sook (Anna) Brooks, at 2712 Denver street, Friday night.

Police went to the house at 9:45 p.m., and discovered the dog had knocked over a stack of boxes, damaging a portable radio, and had torn curtains at the rear door and bent venetian blinds at a window.

The officers and Mrs. Brooks were unable to explain how the dog entered the apartment. It is believed the animal was attempting to get out when it tore the curtains and damaged the venetian blinds.

## **Venice Youth Fined; Burglary Charge Dropped**

Berford J. Brawley, 19, of 123 Grand road, Venice, was fined \$20 plus costs Saturday in the case of Venice Police Magistrate Wesley Edwards on a charge of disorderly conduct.

Brawley had been charged with this burglarious act Venice store earlier this month, police said, but burglary charges were dropped when the store owner declined to press charges.

## **3 Autos, Post Damaged In Crash; Driver Fined**

J. L. Williams, 27, of 203 Allen street, Eagle Park Acres, was fined a total of \$122 Saturday on failure to yield right-of-way, no driver license, reckless driving and damaging a metal post bearing city speed and load limit signs at Fourth street and Madison avenue at 5:45 p.m. Thursday.

The left side of Williams' east-bound auto hit the front and rear side of the southbound car of Frank Marcus, St. Ann, Mo., and then backed into the sign post and the left side of the parked auto of Carl J. Kittel, 1510 Fourth street.

## **Autos Crash Pulling Over For Emergency Vehicle**

Two motorists, pulling over to the curb on Madison avenue at 17th street to clear the road for an ambulance were involved in a minor accident Friday evening.

Police said both cars were being driven south. The drivers were Loretta Tritschuh, 41, of 2501 Sheridan avenue, and Everett Marcus, 48, of 1836 Third street, Madison.

# **MORE ABOUT** **Burglars Loot** (Continued from Page 1.)

in nickels, dimes, quarters and half-dollars between 5 p.m. Thursday and 6 a.m. Friday at the Madison Coal and Feed Co., 1332 State street, Madison police were informed by the proprietor, James Louis.

The money was obtained from a cash register, which was forced open. A desk also was ransacked. Entrance was gained by breaking a 12x17-inch window pane on the northern side of the building.

## **Lumber Firm Entered**

An estimated \$30 in small change was taken in a break-in at the Durfin Bros. Lumber Co., at 1300 Madison avenue, Madison, between 10 a.m. yesterday and 5:30 a.m. today, police said.

Entry was gained by prying a hatch off the front office. The money was in a drawer of a cash register. Nothing else was reported missing.

Two amplifiers were stolen from the front office of the 20th & Park tavern in Granite City. It was reported to police.

A safe that contained only a bag of checks was smashed open at 1815 Street Garage, 1801 Grand avenue. The safe cracker dragged the safe and cash register from the front office to the garage. The break-in, which was discovered Friday morning.

The bag of checks was taken and the checks were scattered along Adams street and were found by the police. The safe cracker was gained by forcing locks on the front door and an inner office door.

The safe was discovered by Charles Braden, an employee. An unsuccessful attempt was made to break into the American Sales Co. store, 314 State street, Madison, operated by William D. Harrison, between 5:30 p.m. Thursday and 9 a.m. Friday. Pray marks were found on a front door.

Theft of his 1953 brown auto from the 1600 block of Madison avenue between Dec. 22 and 28 was reported to police Friday by Fred Thomas, 218 Weaver street.

A brown shopping bag containing a pair of shoes and a shirt was stolen from the auto of George Lipa, 2221a Grand avenue, while it was parked in the 1700 block of Ponton road Friday night.

**Burglar Taken Warrant**

An alleged thief, a hillbilly from the home of Ellis Haskins sr., 1238 Robin street, Venice, was taken into custody Saturday morning at 6 a.m. Saturday, entering through a kitchen window. The warrant contained charges of burglary, auto theft and possession of stolen goods.

Part of a child's bed had been stolen from the home of a lady to reach the window, and he apparently climbed over the fence in gaining access to the room.

Vandalism stole light bulbs and a Christmas tree at the home of A. C. Stover, 2720 State street, Sunday night, according to Granite City police.

## **Anti-Administration Group To Run In City**

Granite City Democratic Chairman Richard Allen said last night he is picking up petitions on behalf of candidates who will oppose the present city administration in the April election.

He is obtaining enough petitions for all ten aldermanic races—eight regular terms and two unexpired terms—and the position of superintendent of streets. Names of the anti-administration candidates have not yet been announced.

## **Auto Strikes Tree**

Sharon R. Hillmer, 28, of 1828 Ferguson avenue, escaped injury when she lost control of the auto she was driving about 10:25 p.m. Sunday and struck a tree at the home of Elizabeth Gombie, 3908 Johnson road.

# **MORE ABOUT** **Injury Toll** (Continued from Page 1.)

## **Pedestrian Injured**

Lorraine Robinson, 53, of 213 Rock street, Madison, was injured slightly Friday night when she was struck by an auto on U.S. 67a at the McCambridge road.

Madison police said the woman alighted from a bus about 8:30 p.m. and started to cross in front of the auto, driven by Robert Briscoe, 37, of Pleasantmoor.

Willie Bradley, 34, of 1219 Bissell street, Venice, suffered bruises when his westbound auto failed to turn from Broadway onto Main street and crashed into the front of a brick building at 921 Main street, breaking a window in the structure at 8:35 a.m. Saturday. The building is occupied by the upper floor.

Bradley was arrested by Venice police for reckless driving, driving on a suspended license and driving without a license. He was held in the upper floor of the auto, badly damaged about 10:45 p.m. Thursday when the auto he was driving struck a utility pole at Ponton and Venice roads.

His auto, badly damaged about 10:45 p.m. Thursday when the auto he was driving struck a utility pole at Ponton and Venice roads.

John Uherick, 52, of 2116 Madison avenue, was injured when he was driving south on a normal speed when it slid on loose gravel and went into a ditch.

Uherick was treated at the hospital for cuts above his nose and right eye and abrasions to his right arm.

Sally Skidblad, 7, of 2646 Delmar avenue, was treated Friday for a head injury suffered about 9:25 a.m. when an auto driven by her mother, Mrs. Alan Skidblad, 43, was involved in an accident on Delmar at 24th street.

They were traveling south on Delmar, driven by Gilbert E. Hall, 41, of 2570 Boyle avenue, was traveling west on 24th street and making a left turn onto Delmar when the accident occurred, police said.

Mrs. Warda Rogers Hurt, 2511 Washington avenue, was treated at the hospital Saturday for a cut to her forehead and injuries to both knees, suffered in a three-auto collision at 25th street and Washington avenue.

Police said she was a passenger in a car driven by her husband, R. V. Shubert, 35, of 2422 Madison avenue, and Thomas Watkins, 33, of 2643 Edwards street.

Dorothy C. Metz, 42, of 213 Marshall avenue, was injured about 5:40 p.m. Sunday. The accident occurred on Ridgeville avenue near Edwards street.

**Parked Auto Struck**

An auto owned by Dorothy J. Boelling, 114 Abbott street, Venice, was struck by a hit-and-run driver about 11 p.m. Saturday as it was parked on Cleveland blvd. near 19th street.

# **MORE ABOUT** **Fire Fatal** (Continued from Page 1.)

## **Fire Fatal**

for the scene as police summoned other firemen by radio.

Attemped to save child

Venice police had been dispatched to the general area, and an out-duty officer, Ralph D. Brawley, was nearby and attempted to enter the Crawford apartment to search for the missing boy. A Madison fireman, Elmer Smith, also made a rescue attempt. Both were driven back by the intense heat.

It was learned immediately that a child might have been trapped inside, and an inhalator true ambulance were sent to stand by at the fire. However, flames already were leaping from the front and windows at 705 Bissell and had spread to the homes on both sides by the time firefighters arrived.

All of the homes were one-story frame structures.

## **Save Adjacent Homes**

Firemen said there was no chance to save the first two houses in the block. As it became apparent that no one would be able to search for the child until the blaze was extinguished, a major part of the effort was concentrated on the third home and on preventing the blaze from spreading farther in the row of closely-spaced dwellings.

The houses are located near the Lee Wright Homes, Venice public housing project. The Madison-Venice city boundary line follows Bissell street.

The Crawford child, born April 4 of last year, was taken to Mrs. Crawford and her former husband at an East St. Louis hospital. Funeral services were held today in East St. Louis.

## **Three-Vehicle Crash On Niedringhaus Ave.**

A three-vehicle crash occurred Friday afternoon in the 1500 block of Niedringhaus avenue when brakes failed on the auto of Judy Boyer, 19, of 3000 Cayuga street.

Her westbound auto hit the rear of the auto of James Arnold, 37, of 718 Twenty-sixth street, knocking it into the rear of a tractor-trailer truck, operated by Glen Bradshaw, 34, of St. Louis.

## **Autos Collide**

Involved in a collision Friday evening was a 1958 Buick Wildcat, owned by a resident of Madison avenue, were the eastbound auto of David Sexton, 49, of Maryville, and the westbound auto of Helen Rehagen, 30, of 1470 Bremen avenue.

## **Hit-And-Run Driver**

A hit-and-run motorist struck the parked auto of Ruth E. Bunker, 41, of 2330 Lincoln avenue, about 5:45 p.m. Sunday. The accident occurred on Ridgeville avenue near Edwards street.

## **Parked Auto Struck**

An auto owned by Dorothy J. Boelling, 114 Abbott street, Venice, was struck by a hit-and-run driver about 11 p.m. Saturday as it was parked on Cleveland blvd. near 19th street.

# **MORE ABOUT** **FBI Files Charges Against Two Local Men In Depot Case**

## **FBI Files Charges Against Two Local Men In Depot Case**

Two Granite Cityans were arrested Friday by FBI agents on charges of receiving and possessing stolen government property. The agents had recovered four electric razors which they said had been taken from the Granite City Army Depot.

Arrested were Rno Zurkublen, 45, of the 1300 block of Madison avenue, and Quentin D. Peterson, 31, of the 2000 block of 20th street. Zurkublen was taken into custody at his home and Peterson at his job as a small arms repairman at the depot.

They were taken before U.S. Commissioner Robert D. Gibson at Alton and waived preliminary hearings. Robert D. Gibson, special agent in charge of the Springfield FBI office, said the case would be presented to the U.S. District Court grand jury.

Gibbons said the four electric razors were found in Zurkublen's home. The razors were taken from the Alton city jail Friday night by a U.S. marshal. They were being held on \$5000 bond each pending an appearance in the U.S. District Court.

## **New Construction In GC Totals \$44,445**

Permits were issued during the past two weeks in Granite City for construction and improvement projects totaling \$44,445, according to Earl Bloomquist, city building inspector.

Nesco Steel Barrel Co. received a permit for \$25,000 (fabricated steel building at its plant at 1801 Benton street. The cost of the building is listed at \$125,000.

James Beckett received a permit for a \$3000 repair at 2019 Richardson, 296, which was charged with careless driving and held for investigation suspected of leaving the scene of an accident, pending a preliminary hearing.

Frank Milnare received a permit for a \$3000 remodeling project at 2541 Benton street. A permit for a projecting neon advertising sign at 1520 State street was issued to Check Cab Co. The three by six foot sign is to cost \$200.

## **Check Fraud Charged**

Dale A. Stein, 22, of 2309 Washington avenue was arrested at his place of work by Madison police at 8:30 p.m. Thursday at the request of Bond county deputies, who took custody of him Friday afternoon. He is charged with using a \$75 fraudulent check No. 30 to buy an auto from Logan Edwards, Posebontas, Ill. He was transferred to the Bond county jail in Greenville pending a hearing.

## **Crash On Madison Ave.**

Autos driven north on Madison avenue by Carmen Burgess, 38, of 2432 St. Clair avenue, and Roland Kries, 16, of 2338 Spalding avenue, were involved in a collision at 24th street Friday night.

# **MORE ABOUT** **Mr. Lydia Falter, 77, Dies; 55-Year Resident**

## **Mr. Lydia Falter, 77, Dies; 55-Year Resident**

Mrs. Lydia Falter, 77, of 1821 Grand avenue, died at 7:30 a.m. today at St. Elizabeth Hospital of infirmities of age. She had been ill three months, and at the hospital five days.

Born at Venedy, Ill., Mrs. Falter had been a Granite City resident 55 years. She was a member of Concordia Lutheran Church and the Concordia Ladies Aid Society.

Her husband, Edward, preceded her in death in 1956. She is survived by a son, Clarence L. Falter of Tampa, Fla.; a daughter, Mrs. Dwight (Helen) Jackson of Granite City; five grandchildren and 10 great-grandchildren.

Funeral arrangements appear in the obituary column.

## **Venice Police Get Two New Squad Cars**

Two new squad cars were received by the Venice police department and will be put into service as soon as installation of equipment is completed, Chief Frank DeWitt said today.

The department had been operating with a single patrol car since one of their two 1960 units was damaged extensively in a collision in August.

The Venice city council ordered two new 1962 models late in the year, but dealers' stocks of the desired series were sold out. Production of the 1963 models was then delayed by a strike at the St. Louis factory.

The autos were purchased from Matthews Chevrolet Co., Granite City.

## **St. Louis Man Arrested After Bridge Accident**

A St. Louis man, Louis Richardson, suspected of fleeing the scene of an auto accident on McKinley Bridge last night was arrested a short time later in Madison. Venice police reported.

Alexander Rozycka, 45, of 1538 Sixth street, Madison, told police he was driving east on the bridge when his auto was sideswiped by another vehicle. He was driving east on the bridge when his auto was sideswiped by another vehicle. He was driving east on the bridge when his auto was sideswiped by another vehicle.

Richardson, 29, was charged with careless driving and held for investigation suspected of leaving the scene of an accident, pending a preliminary hearing.

## **Driver Pleads Innocent To Two Traffic Charges**

Pleadings of innocent were entered Saturday by Preston Poe, 42, of 2423 Logan street, who was charged with reckless driving and leaving the scene of an accident.</

## County To Ask Legislators To Ease Tax Limitations

Repeal of the Hodge-Butler Act regulating county tax rates tops a list of recommendations the legislative committee of the county board of supervisors has prepared for the coming session of the state legislature.

Harry Briggs, Nanotown township supervisor and chairman of the committee, told county board members Friday he believes the board "should go all out for elimination of the act" when the legislature convenes in January.

Briggs' report followed adoption of the county's 1963 budget of \$2,529,035 and a report by finance committee chairman Leslie Pehn that the county's "tax revenues are too limited to provide adequate funds."

The county tax rate was reduced from 10 cents to 8.6 cents last year by the Hodge-Butler Act.

Other recommendations made by the committee call for placing the county board in charge of the courthouse instead of the sheriff, and a mandatory outside audit six months before the end of the fiscal year.

**Permit Treasurer Succession**

The committee also would seek additional legislative control over township road commissioners, require a receipt for payments of the permit to property taxes prior to issuance of auto licenses and provide for the right of a county treasurer to succeed himself.

The committee recommendations call for granting counties authority to establish public works commissions to provide for drainage and sewage disposal. The proposed commissions would have authority to enter into contract with municipalities which do not have these services.

Other recommendations concern contracts for administrative services, providing for legislation, distribution of motor fuel taxes and other matters pertaining to county government. In all, 18 recommendations are included.

## Mrs. Stella LaBlanc, 59, Dies; Mother of 13

Mrs. Stella (Boone) LaBlanc, 59, of Rural Route One, mother of 13 children, died at 1 a.m. yesterday at St. Elizabeth Hospital after a three-month illness. She had been at the hospital four hours.

Mrs. LaBlanc was born in Calhoun county. She had been a resident of the Granite City area for the past 45 years.

Survivors include her husband, Bernard; eight sons, Daniel, James, Dennis and Harvey Boone of Granite City, Richard Boone of East Alton, Bernard LaBlanc Jr. of Fairview, George LaBlanc of Freeburg, Robert LaBlanc of Collinsville; five daughters, Mrs. Letha McDuffy and Mrs. Rosaline Kuehnel of Granite City, Mrs. Olive Shri of Hammond, Ind., Mrs. Frieda Stakes of Freeburg, Mrs. Virginia Lewis of State Park Place; three sisters, Mrs. Jessie Grivas and Mrs. Cora Wilson of Granite City and Mrs. Opal Bettorf of Edwardsville; and 39 grandchildren.

Funeral arrangements appear in the obituary column.

## Long Illness Fatal To Janice Coyle, 15

Janice Ann Coyle, 15, daughter of Mr. and Mrs. William A. Coyle of 1407 Rhodes street, died at 3 a.m. Saturday at the Lincoln State School, Lincoln, after a long illness.

Miss Coyle had been at the school two and one-half years. She was born at Taylorville, and had been a Granite City resident 12 years. She previously lived at St. Louis, Ill.

In addition to her parents, she is survived by two sisters, Misses Catherine Sue and Billie Jean Coyle, both of Granite City, and her grandmothers, Mrs. Ida Peach of Granite City and Mrs. Nell O'Leary of Springfield.

Funeral arrangements appear in the obituary column.

## Driver Arrested After Hitting Truck On Bridge

Venice police charged Jack C. Howard Lynn, 31, St. Louis, with careless driving after a crash near the eastern end of the McKinley Bridge at 5:25 a.m. Friday. He was released on bond to appear for a hearing Jan. 5.

The collision damaged the entire left side of his westbound auto and the left front of the eastbound truck of Luther Harris, Staunton, Ind. Harris said his car skidded against the truck when the auto went out of control after striking railroad tracks at the curve on the bridge.

## Second Continuance In Vice Case Trials

A second continuance was granted Friday in the cases of Miss Karen Sue Knuckelst, Granite City, and James Dowdy of Collinsville, charged with prostitution and soliciting for a prostitute, respectively.

Originally scheduled for trial Dec. 15 before Edwardsville Justice of the Peace Earl Vugniac, the pair was granted a continuance to Dec. 28. On Friday they were granted a change of venue to appear before Edwardsville Police Magistrate William Traband.

Traband said Saturday he received the cases too late to impanel a jury Friday. He continued the trials to 10 a.m. Friday, Jan. 11, at his office.

Dowdy and Miss Knuckelst were arrested in a vice raid by county and state authorities Nov. 29 at the Tattle Tale Inn tavern near Collinsville. Both have pleaded innocent.

At the time of her arrest, Miss Knuckelst, 18, gave her name as Bonnie Staller. She told police she was 19, of Belleville address.

Gus Haller, Madison county liquor commissioner, earlier this month revoked the liquor license of the Tattle Tale. License was issued to the late Edward Falter, formerly of Granite City but now of Collinsville.

## Rehms Infant Dies; Rites Held Saturday

Joseph Martin Rehms, 12-day-old son of Mr. and Mrs. James Rehms of 2528 East 24th street, died at 3 a.m. Friday at St. Louis Children's Hospital. Rites were conducted Saturday with burial in Calvary Cemetery near Edwardsville.

Death was attributed to a respiratory failure and pneumonia. In addition to his parents, the infant is survived by two sisters, Catherine and Lois; two brothers, Michael and James; his maternal grandmother, Mrs. Stella Gallagher of Madison; and his paternal grandfather, Henry Rehms of Granite City.

An obituary notice appears elsewhere in this issue.

## Truck Backs Into Auto

A truck driver, Archie Thomas, 40, St. Louis, was arrested for having no chauffeur's license after a collision at 9:15 a.m. Saturday in a McKinley Bridge toll lane. Thomas had driven into an automatic toll collection lane by mistake and began to back out. Harris said his car skidded against the truck when the auto went out of control after striking railroad tracks at the curve on the bridge.

## Pontoon Beach Village Petitions Ready Jan. 2

Petitions of nomination for prospective candidates for office in the new village of Pontoon Beach are to be available Wednesday in the office of County Clerk Michael Kinney at the courthouse in Edwardsville.

County Judge Michael Kinney signed the order Friday setting the form for the petition. The first office election in the new village will be held March 23.

The offices to be filled are: village president; six trustees for the village; one village clerk. The deadline for filing candidate petitions at Miss Hotz' office is Feb. 1.

All Granite City high school students, they represented the Granite City JA center at JA workshops, seminars and discussions at the Pick-Congress hotel.

## 30 Days For Theft; Faces Burglary Charges

Jack McLean, 22, of 2656 Center street, who also faces a burglary charge, was sentenced to 30 days in the county jail Saturday for theft. He was sentenced by Police Magistrate Gasparovic for putting slugs in a coin changer at a West Grant laundromat.

In the burglary charge McLean was apprehended with Gene Boelling, 24, of 2917 Roosevelt drive, and Robert Bordon, 20, of Collinsville, by Granite City police about 4 a.m. Saturday. Burglary warrants were issued against them by Police Magistrate William Traband of Edwardsville. Bond was set at \$300 each this morning on the charges.

The three were picked up after a description of their auto was broadcast by police. They were accused of burglarizing two Edwardsville service stations. A witness described the auto to Sheriff's deputies.

**SNOW PRINCESS**, Miss Arlette Alexander, a daughter of Mr. and Mrs. Thomas Alexander, 5105 Rupp road, Miss Alexander, who was crowned "Snow Princess" of the YMCA Teen Town Saturday evening.

## Miss Alexander Is Named 'Snow Princess'

Approximately 400 persons attended the coronation of Miss Arlette Alexander as the Teen Town "Snow Princess" Saturday evening at the YMCA. Her escort was Larry Tolbert.

A daughter of Mr. and Mrs. Thomas Alexander, 5105 Rupp road, Miss Alexander is a senior and is first vice-president of the Teen Town Council.

A candidate for "Snow Princess" last year, she is a member of the Delta Chi Tri-Kappa. She was a winter sweetheart, and was in charge of the racket squad for the Red Peppers.

## Miss Towery At State Education Conference

Miss Hazel Towery, 1705 Spring avenue, a Granite City high school business education teacher, attended the 109th annual meeting of the Illinois Education Association in Chicago Thursday through Saturday after spending the Christmas holidays in Sycamore, Ill., with Miss Hetty and Daisy Block retired local teachers.

She also visited Miss Dorothy Morgan, a former Granite City teacher, while in Chicago. Miss Towery is treasurer of the Granite City Education Association and delegate to the IEA and National Education Association.

Representing 64,000 members who discussed school finance, state revenue reform, a state education board, an appointive superintendent, further district reorganization, certification requirements, pension negotiations and higher ethical standards.

## Assessors Agree To List At 60% of Value

Members of the Madison County Assessors Association agreed to appraise property in the county at 60% of full cash value in the quadrennial real estate assessment to begin this week.

The agreement was in the form of a formal resolution passed at a meeting of the association at the county courthouse. Twenty-three of the county's 24 assessors were present and voted for the resolution.

A seven-member committee of the group had met earlier and decided to try to maintain a state multiplier of "one" for county real estate property. A 60% assessment is expected to achieve that goal, assessors said.

## Charged With Failing To Drive Car As Agreed

Arrested on a larceny warrant Friday morning, Harry Hottel, 21, an Army Depot soldier, is being held in the county jail pending a hearing next Saturday in Venice.

The warrant alleges that he failed to deliver a 1935 auto to Philadelphia for shipment overseas. He had been hired by Mrs. Rosemary Whitten, Venice, whose husband, John L. Whitten, is stationed overseas. She gave him \$82 and he said he temporarily left the car at his mother's home in Chicago, having run out of funds due to heavy repair costs.

**Grass Fire In Madison**  
Madison firemen put out a fire in grass and weeds at the rear of 1818 Second street shortly before noon Friday. There was no damage.

## J. W. Thomason Ordained At 2nd Baptist Church

Jerry W. Thomason, son of Mr. and Mrs. Jeff Thomason of Stalling, was ordained as a Southern Baptist minister Friday evening at Second Baptist Church, where he was a member before entering Hannibal-LaGrange College, Hannibal, Mo. He is conducting a youth revival at the church this week.

Rev. Raymond Atwood of Emmanuel Baptist Church served as clerk, and the moderator was Rev. W. L. Showers, pastor of Second Baptist Church, who also gave the charge to the church and Thomason.

Rev. Kenneth McDaniel of Madison gave the examining questions, after the candidate was presented by Carl Ayers, chairman of the board of deacons of the host church. The ordination prayer was offered by Charles Harper of Emmanuel, and the associational missionary, Rev. W. J. Richardson, presented Thomason with a Scofield Bible, a gift from Second Baptist Church.

One of the ordaining council were James Blaylock, Al Caringer, Rev. Ray Lewis, Rev. Paul Harper, Harold Davis, Frank Wilson, Fred Boger, Gerald Mayberry, Clarence Villa, Robert Boger, Kirby Favier and Harry Rongey.

## Stolen Money Order Cashed At GC Store

Merchants of the Quad-Cities are being warned by police to be cautious when cashing American Railway Express money orders. A fraudulent money order for \$88 was cashed Thursday at a downtown Granite City store.

The money order was from one of three books taken recently in an armed robbery in East St. Louis by two men. The money order was made out to a "Leo Smith." Credit records showed no such person.

The three men offered the money order Thursday in payment for \$42 worth of bedding. They took the change in cash. The money order was made out to a "Leo Smith." Credit records showed no such person.

## O. L. Krueger Retires From Laclede Steel Co.

Oscar L. Krueger, a 50-year employee of the Laclede Steel Co. who one time worked at the Madison plant, will retire after 18 years of production scheduling manager in the firm's St. Louis office.

Krueger is the oldest Laclede employee in point of seniority. He began working for the steel company Jan. 1, 1913, at the age of 15. He was transferred to the Madison plant in 1915, working as a billing clerk and later as production clerk, shipping foreman and railroad yard foreman.

Krueger lives at 10220 Capitol drive, St. Louis. He is married and has one son.

## January Hearings Set For Four GC Youths

David Keel, 19, of 1619 Delmar avenue, was charged with driving without an operator's license, improper display of state plates and possession of burglary tools after being stopped by Granite City police about 1:30 a.m. Friday.

Arrested with possession of burglary tools were Robert Garner, 20, of 1235 Madison avenue, Carl Smith, 20, of 2929 Lincoln avenue, and Thomas Carney, 19, of 2435 Logan street.

Police Magistrate Gasparovic set \$250 property bond for each. Their hearings will be Jan. 16.

## Final Hearing Jan. 15 On County Zoning Code

Preparing for presentation of the proposed county zoning ordinance to the board of supervisors on Jan. 16, the county zoning commission will schedule at least one meeting to receive all requests for changes.

A date for the final hearing, a continuation of the Edwardsville session, has been set for Jan. 15.

The commission currently is concluding its study of change requests.

## Salvation Army 'Tree Of Lights' Drive Tops Goal

The Salvation Army's "Tree of Lights" campaign, this year headed by local businessman Carl Graham, topped its \$4500 goal by \$200, according to a tabulation completed late last week. Capt. Mildred Walker said the funds, \$800 of which was received through the kettles in downtown Granite City and at the Bellemeade Village shopping center, were used to distribute 380 baskets to needy families before Christmas. Clothing and toys were included.

Over 800 baskets were distributed by local agencies, organizations, churches and individuals. Those organizations or persons contributing \$25 or more

to the Tree of Lights fund were listed on a board at Memorial Park.

Added to the list of contributors were American Legion Post 113 Victory Mothers Unit Two; United Steelworkers Local 2762; Intertribe Steelworkers Local 1783; Beck Heating & Supply; Davis Funeral Home; VFW Auxiliary Post 1300; Mr. and Mrs. John Deacon; Venice Junior Service Club; Young Married Couples' class of Trinity Methodist Church; Salvation Army Girl Scouts; Knights of Columbus Council 1089; Organizational & Field Maintenance Division 552nd Engineer Detachment GCAD; and Combined Guided Missile Field Supply & Maintenance Branch, GCAD.

## \$29,128 Defense Order For GC Steel Co.

Granite City Steel Co. has been awarded a Defense contract for 461,400 pounds of carbon steel sheet in the amount of \$29,128 by the Defense Industrial Supply Center, Philadelphia, Pa., an activity of the Defense Supply Agency.

The contract was awarded after competitive bidding. Several firms were invited to bid, but only one, Granite City Steel Co., submitted bids.

## Corps of Engineer Awards For Three GC Residents

Three Granite City residents were among 13 employees of the U. S. Army Engineer Supply Center, 410 North Broadway, St. Louis, recently given awards for outstanding performance by Colonel Thomas B. Simpson, commanding officer.

They are: Mrs. Mary L. Wood, 2137 Benton street, \$100; Charles W. Weaver, 1000 Johnson road, \$200; and Frederick Hubert, 1908 Johnson road, \$200.

## SOCIETY

### Wise-Reed Engagement

Mr. and Mrs. Robert Reed, 1701 Charles street, are announcing the engagement of their daughter Miss Janice Gayle Reed, to Walter Lee Wise, a son of Mrs. Mildred Wise, 55 Venice Homes, Venice.

The bride-to-be is a June 1962 graduate of the Granite City high school. Her fiancé graduated from the Venice high school in 1958. Both are employed in St. Louis.

### Class Party Held At West Home

Mr. and Mrs. Russell West and Mr. and Mrs. Walter Mathis entertained the Harmony Class of Niedringhaus Memorial Methodist Church at a holiday party and meeting Saturday evening in the West home, 2401 Cleveland blvd.

After the opening prayer by Harold Lynn and devotion by John Lerch, there was a brief business session. Plans were made for a guest night in January and the annual "sweet-heart" dinner in February.

Gifts were exchanged and refreshments were served to Mr. and Mrs. Lynn, Mr. and Mrs. Lerch, Mr. and Mrs. Don Bright, Mr. and Mrs. Roy Cornish, Mr. and Mrs. Waldo Frohardt, Mr. and Mrs. Raymond Henley, Mr. and Mrs. Norman Holinger, Mrs. Fred Slicht, Mrs. Verna Willtrout and Mrs. Ruth Layman.

### HOME FROM COLLEGE

Among the guests at the home of Mr. and Mrs. Malcolm Thompson on Breckenridge lane for the holidays were their sons, Hadley, who was married Saturday to Miss Evelyn Brinley of East St. Louis, and David, who is still attending Southern Illinois University at Carbondale, and Donald, a student at the University of Virginia in Charlottesville, working toward a master degree. Another house guest was Miss Annette Spera of Stamford Conn., who also is working toward a master degree at the University of Virginia.

### VISITING PARENTS

Miss Carol Hoelscher of Detroit, Mich., arrived home Thursday evening to spend the remainder of the holidays with her parents, Mr. and Mrs. George R. Hoelscher, 112 Central avenue.

### OUT-OF-TOWN GUESTS HONORED

Mr. and Mrs. Mickey Loftus entertained guests with a dinner party Thursday evening in their home, 26 Bermuda lane, in honor of Mrs. Wanda Harvey and children, Bobby and Sharon Kay, who were visiting here from Tulsa, Okla.

The hosts served a buffet dinner to Mr. and Mrs. Edward Loftus, Mrs. Harvey and children, Mr. and Mrs. Joe Loftus and children, Judy and Michael, and the hosts' children, Patrick, Scott, Mark and Jeffery Loftus. Mrs. Harvey is the former Wanda Loftus.

### RETURNS HOME AFTER EYE SURGERY

George E. Crocker, Rural Route One, Edwardsville, returned home from McMillan Hospital, St. Louis, Wednesday evening after undergoing eye surgery.

He will be convalescing at home for three months before returning to work at the A. O. Smith Corp. plant in Granite City.

Mr. and Mrs. Charles Baumbarger, 1601 Lindell blvd., entertained their son-in-law and daughter, Mr. and Mrs. Eugene Dickey, during the holidays. Their guests left Thursday morning for their home in Newport, R. I., where Dickey is stationed with the U.S. Navy. Dickey is the former Peggy Baumbarger.

### HOME FOR HOLIDAYS

A 2/C Terrell G. Johnson, son of Mr. and Mrs. Charles Hoefel, 2418 Waterman avenue, has returned to Chennault Air Force Base in Lake Charles, La., after spending the holidays at home. He has been in service the past 16 months and in February will be transferred to Biggs Air Force Base in El Paso, Tex.

### Shower Honors Miss Strotheide

Miss Kathleen Strotheide, who will be a January bride, was guest of honor Sunday afternoon at a shower given by Miss Elaine Tarasovich, Pat Barlyshe and Mrs. Connie Strotheide, who will be attendants at the wedding. The shower was held at the home of the bride, 3244 Wayne avenue.

Those attending were Misses Linda Toburen, Mary Walters, Sue Wertha, Nancy Jones, Sue Busch, Carol Kuenschler, Margaret Carls, Terri Straka, Cookies Sparks, Betty McCauley, Pat Sexton, Carol and Nancy Blachoff and Mesdames Sally Baumbarger, Myra Spillers, Barbara Harris, Mary Ellis, Linda Chapman and honoree's mother.

A pink umbrella centered the gift table and after the packages were opened refreshments were served.

Miss Strotheide will be married Jan. 26 at Sacred Heart Church to Ronald Harris.

### Open House Held For Dr. Wm. Bull

Mr. and Mrs. Everett Bull, 2232 East 25th street, held open house Sunday in honor of their son and family, Dr. and Mrs. William E. Bull, and their sons, Larry and Jeffrey, of Knoxville, Tenn., who have been spending several days here.

Mrs. Ralph Caschetta and Mrs. Carol Jack assisted and among the guests were Mr. and Mrs. Clifford Miles and family, Mr. and Mrs. Luther Bull, Clyde Bull and fiancée, Miss Peggy Orr, Mrs. Maude Matheny, Mr. and Mrs. Ralph Matheny and family, Mrs. Heston Watson, Mrs. Prentiss Matheny and daughter, Mr. and Mrs. James Grayson and family, Tommy Grayson and fiancée, Mr. and Mrs. Dean Herbst, Mr. and Mrs. Ralph Caschetta and Mr. and Mrs. Carol Jack.

Dr. Bull and family arrived Saturday and plan to return to Knoxville Tuesday. He is an associate professor of chemistry at the University of Tennessee.

### Party Honors Leslie Lombardi

Leslie Lombardi, six-year-old daughter of Mr. and Mrs. Michael Lombardi, 2108 Avenue, celebrated her birthday at a luncheon given by her mother Saturday.

Holiday appointments were used and there were games with prizes given to Patti Kovar, Mary Prokes, Karen Stawar, Mary Beth Favier and Annette Favier.

Gifts were presented to the young guest of honor and other friends and relatives were entertained at the Lombardi home in the evening.

**SCREENS & STORM INSURTS REPAIRED, GRANITE CITY GLASS, 18TH & EDISON**

MRS. JOHN FREDERICK HILLMER, a bride of Saturday. Before her marriage at First Presbyterian Church in Madison she was Norma Jean Hinson, a daughter of Mrs. Earl Hinson Jr., 1530 Third street, Madison.

### Hillmer-Hinson Wedding At Madison Presbyterian

Poinsettias decorated the altar of the First Presbyterian Church of Madison for the wedding of Miss Norma Jean Hinson, daughter of Mrs. Earl Hinson Jr., 1530 Third street, Madison, and John Frederick Hillmer, son of Mrs. Harry Hillmer, 3000 Idaho street, which took place Saturday evening at seven o'clock.

Rev. Howard Lucas officiated. Kenneth Hinson, brother of the bride, gave his sister in marriage.

The bride wore a white street dress with lace bodice, long sleeves and rounded neckline with silver threads. The skirt of the dress was worn over taffeta. A headpiece of nylon held the noisep veil of chiffon securely.

A cascade bouquet of white roses was carried by the bride. Miss Dorothy Hinson, a sister of the bride, served as maid of honor. She was attired in a lavender dress with short sleeves, fashioned like that of the bride. A gold headpiece was worn.

The groom chose Len White, side of East St. Louis as best man. His brothers, Richard Hillmer and Raymond Hillmer, acted as groomsmen.

Mrs. Hinson, the bride's mother, appeared in a blue wool sheath dress. Mrs. Hillmer's dress was blue silk crepe in sheath styling. Black accessories and white carnation corsages were worn by the mothers.

Mrs. Leonard Miller, organist, accompanied Mrs. Austin Lewis as she sang "Always" and "Be Cause."

A reception followed the wedding ceremony. It was held in the service rooms of the church. The Peggy class of the church presided and served approximately 200.

The bride, a teacher at Madison junior high school, attended Madison schools and McKendree College at Lebanon. Her sorority is Phi Tau Omega. She is active in Venice-Madison American Legion Auxiliary Unit 307 and the Madison county Eight and Forty unit.

The groom attended Granite City schools and is an operating engineer for the state of Illinois. He is a member of Venice-Madison American Legion Post 307.

The couple will be at home to friends at 1670 Third street, Madison.

### VISITS SON AND FAMILY

Mrs. Kathryn Smithson, 2593 East 27th street, and Mrs. Treasa Ryan, 2536 East 27th street, returned last night by plane from Wichita, Kans., where they spent the Christmas holidays with Mrs. Smithson's son and daughter-in-law, Mr. and Mrs. B. J. Boehm and their daughter, Cynthia.

HOLIDAY BRIDE. Mrs. Robert G. Martyn, the former Martha Seebold, daughter of Mr. and Mrs. A. H. Seebold, 2645 Cleveland blvd., who was married Saturday evening at St. Peter United Church of Christ.

### Miss Seebold, Robt. Martyn Wed In Christmas Setting

In a Christmas setting of red poinsettias, evergreens and candlelight Miss Martha Emilee Seebold was married to Robert Geoffrey Martyn, 60 West Walling drive, St. Louis, Saturday evening at St. Peter Evangelical Reformed Church, 61st street and Cleveland blvd.

The bride's parents are Mr. and Mrs. Adolph H. Seebold, 2645 Cleveland blvd. Mr. Martyn is a son of Mrs. Lester Cohen of Kings Point, N. Y.

Bouquets of white chrysanthemums adorned the altar to which the bride was escorted by her father through a white-carpeted aisle lined with burning candles in golden candelabra and tied with red satin bows.

Preceding the double-ring ceremony performed by Rev. Robert J. Baumann, Warren C. Simpkins sang the Lord's Prayer and "Wedding Prayer," accompanied by the church organist, Mrs. Gordon McAllister.

The bride wore a gown of pale midnight ivory reembodying a classic look on French tulle over silk peau de soie lavishly beaded with tiny seed pearls and crystals in a snowflake design.

It was exquisitely designed with an empire waist bodice, an oval neckline and short sleeves. Back interest was achieved by a square cut train caught high at the waist with a bow. A veil of imported silk illusion was bordered with matching lace and worn Madama style. The bride carried a modified crescent arrangement of white gardenias.

A matron of honor, Mrs. Larry Ryan, the bride's cousin, six bridesmaids, Miss Ladonna Coker, Miss Elizabeth Ann McCauley, Miss Patricia Ann Cronovich, another cousin of the bride, Miss Mary Ann Baumann, Miss Gloria Zatz, Miss Mary Hobart of Washington, D.C., and a junior maid, Miss Barbara Joan Hordey, the bride's cousin, headed the procession.

They were identical floor length gowns of flame velvet, made with rounded necklines, they had long tapered sleeves. Draped at the waist, the skirts of the controlled skirts. Matching velvet roses touched with pearls and circular maline bells gave accent to the costumes. They carried white poinsettias, the honor attendants bouquet tied with green velvet ribbon and those of the maids having white ribbon.

Two little flower girls, Sandra Grove of Collinsville, and Linda Kay Hordesky, cousins of the bride, wore dresses of white cotton velvet made with high necks, long sleeves and red velvet rosebuds at the waists. White flowered hands were in their hair and they held white baskets filled with red rose petals.

Robert Herzworm was best man for Mr. Martyn; and the corps of ushers included Frederick W. McCoy Jr., John Berna, James Dierberg, Ronald Greenberg, Harold Blatt and James Shaw, all of St. Louis, and Richard Lesko of Granite City, junior usher.

Mrs. Seebold chose for her daughter's wedding a dress of royal blue over green. The green chiffon skirt was flared, with a sequined blue and green sash featuring a round neck and cap sleeves. Mrs. Cohen, the bridegroom's mother, who was here with Mr. Cohen for the wedding, appeared in a dress of powder blue lace and erpe. Both wore gardenia corsages.

The wedding reception was held directly after the church service in the Ivory Room of Hotel Sheraton Jefferson in St. Louis.

The bride and groom will honeymoon in Acapulco, Mex. They will be at home to their friends after Jan. 15 at 8332 Delcrest drive, Apt. 2C, St. Louis.

A graduate of the Granite City high school, the former Miss Seebold, known to her friends as "Cookie", attended Northwestern University in Evanston where she became a member of Alpha Delta Pi sorority. Mr. Martyn was graduated from Syracuse University, N. Y., with a B.S. degree in Business Administration.

Out-of-town guests here for the wedding, beside the bridegroom's mother and stepfather, were Miss Linda Bateman of Zanesville, O., and Miss Mary Berna, Daugherty of Bronxville, N. Y.

### MARRIED IN CIVIL CEREMONY

Mr. and Mrs. Malcolm Thompson, 4170 Breckenridge lane, are announcing the recent marriage of their second son, Hadley E. Thompson, and Miss Evelyn Ma-

Ma-Brinley, a daughter of Alfred Brinley and Mrs. John Carroll, both of East St. Louis, Saturday in Monrovia, Ill.

The ceremony was performed by Judge George J. Rubel, and witnesses were Miss Annette Spera of Stamford, Conn., and Donald Thompson, the bridegroom's brother.

The newllyweds are spending a few days here with the bridegroom's parents before leaving for Carbondale where Mr. Thompson, a senior at Southern Illinois University, will continue his studies.

# Warriors Repeat As Titlists In Own Wrestling Meet

## 5 GCHS Individual Champs Crowned; East St. Louis Takes Second Place

Granite City high school's wrestling Warriors were crowned team champions in their own invitational tournament for the second straight year here late Friday.

The Redmen of Coach Bill Schmitt piled up 127 points in the two-day meet, with improved East St. Louis finishing second with 73 and Jacksonville third with 64.

Five individual championships were won by Granite City matmen. Paul Lapinski at 95 pounds, Rich Bledsoe at 103, Skip MacMillan at 112, Larry Reynolds at 133 and Denny Petroff at 165 received first-place trophies.

The runner-up flyers had four individual champions, and Springfield Lamphier Decatur Eisenhower and Wood River one each.

**Lapinski Outstanding**

Lapinski set an unmatched pace among the 120 wrestlers competing, registering the most pins (four) and the quickest fall (13 seconds).

The 120-pound champion, Dick Allin of Eisenhower, beat out Jack Watkins of Jacksonville and Bob Nelson of Edwardsville by the narrowest of margins. All three wrestlers had beaten each other when the 120 pounds were completed, with Allin declared the champion by virtue of the fewest number of "bad marks" against him.

Helping the Warriors roll up 24 more points than last year's GCHS title team, Tom Vassileff, second at 127 pounds; Joe Crider, second at 138; Mike Fry, second in heavyweight class; and Gary Forshee, third at 180 pounds.

103-Bledsoe, MacMillan, Lapinski, Bledsoe, MacMillan, Reynolds and Petroff all survived the round-robin competition without a loss, while Tom Vassileff and Fry were beaten once each, Vassileff in overtime. Forshee dropped his last two bouts.

The 145-pound champ, East St. Louis' Willis Jackson, wrestled in six bouts before claiming the title, more competition than was faced by any other wrestler.

The final point standings: Granite City 127, East St. Louis 73, Jacksonville 64, Edwardsville 61, Springfield 58, Wood River 53, Mattoon 31, Quincy 25, Eisenhower 20, Ottawa 15.

**Champions' Progress**

Granite City champions and how they advanced:

Paul Lapinski (95)—pinned Mike Fulkerson (Wood River) 6:13, pinned Gary Hetherington (Eisenhower) 1:53, pinned Paul Worrill (Jacksonville) 1:53, pinned Harlan Boatright (E. St. L.) 1:52, and defeated Bob Overmeyer (Mattoon) 5-0.

Rich Bledsoe (103)—defeated Ron Helm (Jacksonville) 12-2.

**Ok County**

(Continued from Page 1)

on such investments are being made this month. The board plans to study the matter.

The budget adopted by the board provides for expenditures of \$1,380,835 from general revenue, with \$1,548,200 to be spent from special purpose funds. Expenditures of \$503,191 are authorized by self-sustaining offices from their own fees and earnings.

Judiciary expenses provided by the budget amounted to \$250,500; county penal expense \$109,913; the county nursing home \$123,623; welfare work other than the nursing home \$249,236; administrative expense at the courthouse \$74,225; and administrative expense other than the courthouse, \$319,797.

Education expense is set at \$13,120; miscellaneous expense at \$174,681 and contingencies at \$65,500. The contingencies fund is maintained to supplement other funds, if necessary and cannot be spent unless transferred to other funds. Frenn said if the contingencies fund is not used, the actual county deficit at the end of the year will be about \$10,000.

Special purpose fund expenditures provided by the budget include the county tuberculosis sanatorium, \$470,550; county highway fund, \$386,000; county bridge fund, \$413,000; county retirement fund, \$240,000; veterans' assistance, \$9250; county Civil Defense, \$20,000; and Madison county museum, \$8000.

In making the budget public earlier this month, Frenn said it is not sufficient to provide adequate service in all areas of county government. He described it as the best the finance committee could do with the limited revenue available.

The Illinois Supreme Court last year upheld the Holbe-Butler Act limiting county general fund tax rates, resulting in a drop of about \$344,000 annually in Madison county tax revenues.

Prior to the court action, the county operated with a 10-cent rate, which had to be dropped to 5.66 cents.

Haller said Friday he can see no relief for the county's financial straits short of action by the state legislature. "It is the duty of our legislators to restore our old tax rate under which we were operating so well," he said.

## Lamphier Wins Mater Dei Tourney; 2nd Loss Eliminates Rams Friday

Unable to put together a winning combination, Lincoln of Venice lost its first two games Thursday and Friday morning and bowed out of the 16-team field entered in the Mater Dei (Brees) invitational basketball tourney.

Springfield Lamphier, with victories over Sparta in double overtime, St. Teresa's of Decatur and Lincoln, carried home the championship trophy Saturday night with a 72-62 victory over Urbana in the title game.

Sparta whipped host Mater Dei, a 47-46 victim of Urbana in the semifinals, 68-64 for third-place honors. The consolation ward was won by East St. Louis Assumption, an easy 59-39 winner over St. Peter & Paul of Waterloo in the losers' bracket wrapup.

**Luts Gets 32**

Ss. Peter & Paul of Waterloo eliminated Lincoln of Venice in a consolation quarterfinal Friday morning, 63-60, after the Rams had played the winners on even terms in the first half and led 31-30 at intermission.

But the Rams were unable to stop scoring ace Dennis Lutz, who sent home 13 shots and finished with 32 points. Tommy Turner led Lincoln with 22.

The scoring: Lincoln—Turner 22, Hatter 15, Dillon 12, Gray 7, Dandridge 3, Wooten 0; St. Peter & Paul—Lutz 32, Joe Vogt 11, Andy Benyo Jr. 8, Tim Harlin 8, Dave Freund 2, Jim Teenjes 2.

Joining Ss. Peter & Paul in the consolation semifinals were St. Paul of Highland, 83-60, and St. Paul of Waterloo, 83-60.

In the winners' bracket Friday, Springfield Lamphier dumped St. Teresa of Decatur 60-45.

Sparta, humbled coil-shooting 83-79, 79-78 Urbana topped Johnson City 61-44 and Mater Dei outlasted Hillsboro 61-36.

## St. Michael's Downs Sacred Heart, 33-32

St. Michael's of Staunton defeated Sacred Heart of Granite City 33-32 Friday night in a parochial basketball contest.

The Falcons continue their season tomorrow night, traveling to Collinsville for a pair of games with St. Peter and Paul at 7 o'clock.

## 165 Tops Girls' Loop

Judy Anderson's 165 total topped bowlers in the park district Girls' League Saturday at the Top Bowl. Other high scorers were: North League—Marsha Galloway 163 and Ann Rutledge 156; South—Susan Mertz 142, Mary Ann Abramovich 133 and Phyllis Willis 131.

# Granite City Takes Consolation Trophy At Pontiac

## Only Loss Is To Eventual Champion Lockport In 1st Round; Bloom 3rd

Granite City's basketball Warriors returned home from the Pontiac tournament yesterday with two consolation awards, the trophy picked up in the losers' bracket final Saturday evening and the knowledge that the only squad to defeat them at Pontiac—Lockport—went on to win the championship trophy.

Downed 68-58 by Lockport Thursday evening, Granite City rebounded to whip Clinton 53-27, Anna-Jonesboro 84-66 and Lincoln 64-57 and make the best showing ever by an Andy Sullivan-coached club in the 16-team invitational holiday meet.

Lockport, which came from six points back to stop the Warriors in a first-round game, defeated Peoria Richwoods, Bloom of Chicago Heights and then Rock Island Alleman 62-44 in the title game.

Bloom overpowered Springfield's Senators 63-45 to pick up the third-place trophy.

Clinton holds Bell. In its consolation quarterfinal contest, Granite City ran into a Clinton club which has been whacked 72-27 by Richwoods in the first round, and which held the ball against the Warriors in the first period, GCHS led 5-3 after one quarter, and then used a full-court press to keep Clinton's stalling tactics, scoring 24 points in the third quarter to break open a close contest.

Granite City scoring: George Moore 17, Larry Wortham 11, Jim Joffitt 4, Jim Cant 5, Charlie Papp 2, Elton Hall 3, Barry Sykes 2. Granite City — 5 12 24 12 53 Clinton — 3 10 4 10 27

Near-Record Effort. The Warriors came within seven points of the tourney scoring record in defeating Anna-Jonesboro 84-66 in the consolation semifinals. Sullivan's boys jumped away to a 23-14 first-quarter lead, and the coach was able to clear the bench before halftime.

Granite City scoring: Moore 24, Proffitt 15, Wortham 9, Hoffman 9, Cant 7, Liley 4, Brink 4, Rousseau 4, Papp 3, Hall 2, Sykes 2.

Score by quarters: Granite City — 28 32 18 14 84 Anna-Jonesboro — 14 16 20 16 66

The consolation trophy contest with Lincoln, held in the second period when the Warriors outscored their opponents by five points. The other three periods were played on a nearly even basis, scoring-wise Lincoln could not cut into a 34-27 half-time lead, however.

Lincoln had advanced to the losers' finals by tripping Princeton 70-63 and knocking out Streator 78-68 after losing to Waikuan in the first round, 67-42.

Move Shines. Sullivan, the only casualty among Granite City's contingent at the tourney, the brought home a heavy coil had words of praise for Moore, who shot 10 premonently well in the tourney (38 of 56 for 87%) and hauled down 49 rebounds in four

games. Moore had 93 points in the four GCHS games. Jim Cant's work on the boards also improved, Sullivan said, together with Jim Proffitt's floor play. Proffitt was credited with 19 assists in the Lincoln game alone.

The Warriors, already invited back to Pontiac next year, scheduled an informal workout at the GCHS gym this morning and then will lay off practice until Thursday. On Saturday night, they resume regular season play at home against Wood River.

George Moore's 26 points Thursday were not enough to offset the excellent scoring balance displayed by Lockport, which worked from a one-point halftime deficit to a 10-point victory margin, 68-58.

Forty-one fouls were called in the game, and the Warriors stayed close until near the end by cashing in at the free throw line, where they outscored Lockport, 20-14.

Starters Bob Ford and George Fulton each fouled out before it was over, but contributed 27 points between them for the winners before leaving the game. Charles Gaston and Lee Balaban also scored in double figures for Lockport.

The Thursday night first-round session saw Bloom of Chicago Heights move up over host Pontiac 72-46, and Arlington town back Anna-Jonesboro, 69-48.

Earlier in the day, Rock Island Alleman toppled Princeton 61-50. Waikuan powered past Lincoln 67-42; Springfield was extended to host Streator 48-40. Washington moved out LaSalle-Peru 42-40 and Peoria Richwoods humbled Clinton, 72-27.

The Granite City-Lockport scoring: GCHS — Moore 26, Liley 11, Proffitt 11, Cant 6, Papp 4, Brink 4, Wortham 9; Lockport — Fulton 17, Balaban 14, Gaston 12, Balaban 6, Rousseau 6, Leonard 2, Bratton 1. GCHS 0.

Score by quarters: Granite City — 28 32 18 14 84 Anna-Jonesboro — 14 16 20 16 66

Michael Lopez Photo

**EXPRESSIONLESS PERFORMER.** Madison's Cecil Bell, his face mirroring none of the tension of Friday night's uphill battle against East St. Louis in the semifinals of the Flyers' consolation tourney, snags a rebound over the outstretched arms of Flier Bob Roberts. The Trojans' Clint Robinson (40) screens out Ernie Johnson of East St. Louis. Madison won 62-61 on Bell's basket in the 20th seconds.

## Kahoks Swamp MHS 73-44 In East St. Louis Finals Despite Bell's 26 Points

Collinsville achieved an early and easy revenge for its pasting of Kahoks in the semifinals of last season's regional tournament Saturday night in East St. Louis, where Coach Vergil Fletcher's Kahoks showed no mercy in whipping the Trojans 73-44 in the title game. The Flyers' eight-team holiday tourney.

The consolation trophy was won in an earlier game Saturday by Lincoln of East St. Louis, which spelled Jacksonville 77-72 in overtime.

**Height, Balance Tell.** The victors could not stop Madison's latest scoring phenom, Cecil Bell, who took game highs with 26 points. But the Trojans in turn were unable to cope with Collinsville's height, and better scoring balance. Madison fell behind 17-4 after one quarter and never threatened.

Joe Brennan led the Kahoks with 23 points, and was joined in double figures by three teammates.

Former Madison player Bob Hayes pumped in 32 points in lead Lincoln past Jacksonville. Lincoln outscored the Kahoks 11-6 in an overtime period after regulation play had ended in a 66-66 deadlock.

The Madison-Collinsville scoring: Collinsville — Brennan 23, Steve Gauen 4, Ron Matkitts 11, Roger Bohmstedt 17, Dave Russell 16, Rich Moore 2; Paul Lusk 5, Hayes Wright 3, Gary Skinner 3, Tom Lubak 1.

Score by quarters: Collinsville 17 26 14 22 79 Madison 7 12 14 11 44

Nov. 8-2, Madison will resume play in Friday night's quarterfinal against the Midwestern Conference Bulldogs.

**Late Late Rally.** Down by eight points at halftime, Madison did not catch up until Bell fired in the game's final basket with 20 seconds left to change a 61-40 East St. Louis lead into a 62-61 Madison victory.

Both clubs had free throw opportunities in the final 15 seconds, but neither could convert. Madison jumped in front in the first quarter, but went scoreless in the second period while the Flyers rimmed six quick points for a 17-16 lead. They widened it to as many as 10 before the half ended.

But Bell led the Trojans back with his rebounding and shooting, finishing with 30 points. The scoring: Madison — Bell 30, Skinner 10, Wright 9, Fisk 6, Lusk 4, Robinson 3, Lubak 0; East St. Louis — Bill Schofield 19, Earl Helm 12, Ernie Johnson 12, Bob Roberts 11, Malcolm Purcell 4, Robert Gregory 3.

Score by quarters: Madison 16 9 15 22 62 East St. Louis 12 14 14 6 40 Collinsville trailed Litchfield

MRS. JOHN M. JUHASZ JR., whose marriage was an event of Saturday morning at Sacred Heart Catholic Church. She is the former Joyce Ann Fea, a daughter of Mr. and Mrs. Thomas N. Fea, Rural Route One.

## Miss Joyce Ann Fea Becomes Bride Of John M. Juhasz Jr.

Another of the holiday weddings was that Saturday morning at Sacred Heart Catholic Church of Miss Joyce Ann Fea, a daughter of Mr. and Mrs. Thomas N. Fea, Rural Route One, and John Michael Juhasz Jr., whose parents reside at 2933 Madison avenue.

The Rev. John Barrett officiated at the 11 a.m. service. A program of wedding music was provided by Miss June Night, violin, soloist, and Mrs. Margaret Craushe, organist.

The bride wore a gown of Chantilly lace fashioned with long sleeves tapering to points at the wrists. Heavy bridal satin gleamed under the lace with sequins and seed pearls at the neckline. The front of the haughty skirt was made of tiers of scalloped lace and nylon tulle, and the back of lace flowed into a chapel train. Gardenias, stephanotis and holly were combined in the bridal bouquet.

Three attendants, Mrs. Vincent Boyer, a sister of the bride, matron of honor, and Miss Margaret Ann Juhasz, the bridegroom's sister, and Mrs. Jack Tritschuh, bridesmaids, were dressed alike in ballerina-length emerald green gowns of Christmas red satin. Designed with bare shoulders and three-quarter length sleeves, they featured matching overskirts, tulle length, fastened in front with tailored bows. White fur pillbox hats completed their costumes.

## Miss Toburen Is Future Bride of Richard Williams

Miss Linda Toburen and Richard Williams are engaged.

Both young people are home from school for the holidays and the betrothal announcement was made at a family party given by the bride-elect's parents, Mr. and Mrs. Robert Toburen, 1533 Johnson road.

The prospective bridegroom is a son of Mr. and Mrs. Lloyd Williams, 2100 Cottage avenue.

MRS. GALE E. GARBE, the former Mary Lou Reilly, daughter of Mr. and Mrs. Louis B. Reilly, 1671 Fourth street, Madison, who was married Thursday at St. Louis King of France Church (Old Cathedral) in St. Louis.

## Mary Lou Reilly, Gale Garbe Wed at Cathedral

St. Louis King of France Cathedral (Old Cathedral), St. Louis, was the scene of the nuptial wedding Thursday of Miss Mary Lou Reilly and Gale E. Garbe, The Rev. Fr. Robert E. Ditch officiated in a Christ-mas setting.

The bride, a daughter of Mr. and Mrs. Louis B. Reilly, 1671 Fourth street, Madison, was escorted down the aisle by her father.

Her gown was of ivory delus-treous satin enhanced with pearls and etched Alencon lace at the neckline and slim sleeves pointed over the hands.

The bouquet skirt, with chapel-length train, was adorned with lace motifs, embellished with crystal sequins and seed pearls.

A bubble veil was secured to a pearl and sequin crown, and she carried a bouquet of orchids and stephanotis.

Miss Mary Ann Daley, cousin of the bride, of Taylorville, Ill., was maid of honor and Miss Toni Reilly, a sister-in-law, of University City, Mo., was matron of honor.

Bridesmaids were Mrs. Janice Parton and Miss Linda Taylor, both of Madison, and Mrs. Judy Werthe of Granite City, Terry Ann Daley, Granite City, cousin of the bride, was flower girl.

The honor attendants and flower girl were escorted alike in bright red velvet with "A-line" skirts and large velvet loops to form bustles at the back. The bridesmaids wore white satin sheaths with overskirts of white Chantilly lace. Sashes of red satin hugged the waistlines.

All of the attendants wore small red velvet hats trimmed with white.

## Reorganization Meeting Set For Candy Strippers

Mrs. Weldon Thomas, R.N. educational co-ordinator and director of volunteer services at St. Elizabeth Hospital, announced today that on Saturday at 3 p.m. at the YMCA a reorganization meeting will be held for the hospital's Candy Strippers.

All participating candy-strippers are urged to attend. Mrs. Thomas will explain new rules and regulations governing the candy strippers in future.

Mrs. Thomas is filling the position recently vacated by Mrs. Nedra Moran, who has moved to another city.

## James Engelke Attends FFA-Bureau Meeting

James Engelke, Rural Route One, was one of three Madison county Future Farmers of America representatives attending the fourth annual FFA-Bureau meeting at Normal last week.

The meeting, held on the Illinois State Normal University campus, was attended by about 300 Illinois FFA members. Featured speaker was Dr. Clifton Gamus, vice-president of Harding College at Searcy, Ark.

## Lost Rites At Iberia, Mo., For Otto Ponder

Funeral services were held this afternoon at Iberia, Mo., for Otto Ponder, 72, father of Mrs. Gladys Asadorian, 1545 Lincoln blvd., and Earl Ponder, 2942 Circle drive.

Ponder, who had been ill four months, died Saturday at his home in Iberia. Burial took place at Madden Cemetery there.

MISS JOANNE RUSSELL, fiancée of Bobby G. Patton, a son of Mr. and Mrs. William Patton, 3510 Terrace lane. The bride-to-be is a daughter of Mrs. Eva Russell, 1601 Spring avenue.

## HONOR MISS WONDRA AND FIANCE

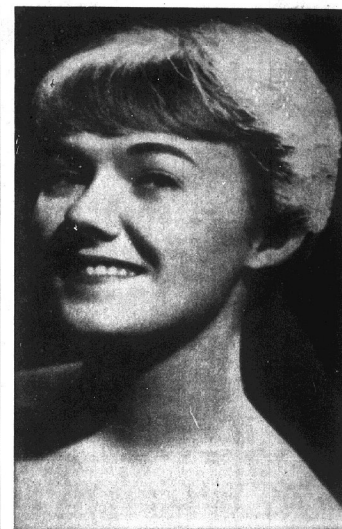

Mr. and Mrs. David Larkin, 2551 Edison avenue, entertained a group of young people at a party in their home Sunday evening in honor of the engagement of Miss Marily Wondra and Bobby G. Patton, who has just been announced.

A setting of pink and white and Christmas evergreens was used and approximately 20 guests attended.

## RETURN TO INDIANA

Miss Nancy Hadaller and her brother, David, have returned to their home in Covington, Ind., after visiting their uncles and aunts at 2508 Cleveland blvd. the past week.

— TRY A CLASSIFIED AD —

ENGAGED. Miss Barbara Baldwin, fiancée of Cleon Statton, a son of Mr. and Mrs. C. E. Statton, 2547 Cleveland blvd. The engagement of the couple has just been announced by the bride-elect's parents, Mr. and Mrs. Lee Baldwin of LaGrange, Ill. Miss Baldwin was here for a holiday visit at the Statton home and was introduced to friends of the family at an open house.

## Condition Improved After Week of Coma

After being in a coma for more than a week following a cerebral hemorrhage Dec. 21, Mrs. C. H. Townsend, 1815a Delmar avenue, has regained consciousness and was reported somewhat improved today at St. Elizabeth Hospital.

Her right side is still paralyzed, however, and she is unable to speak as a result of the hemorrhage.

## Mrs. Poppenshouse Dies Was Well Known Here

Mrs. Mary Kuister Poppenshouse of St. Louis, a sister of Mrs. Emilie Reinhardt of 1718 Garfield avenue, died yesterday at the age of 80. She was well known in the Quad-Cities.

Funeral services will be conducted at 1 p.m. Wednesday at the St. John United Church of Christ, Grand avenue at Lee street, St. Louis. Interment will be in the church cemetery.

# BUSINESS REVIEW AND FORECAST

What will the new year of 1963 be like? Most contributors to the annual Press-Record business review predict that it will be as good as 1962 from an economic standpoint—and probably better in many ways. A noticeable growth in optimism has occurred in recent weeks.

Looming large in future thoughts are the possibility of federal tax revision and other efforts to strengthen local firms in meeting increasing competition—both domestic and foreign—on the quality and price of their products.

Plus factors which are a part of the generally encouraging outlook include highway building, particularly progress on the riverfront road adjacent to the Port of Granite City; expansion of existing wharf facilities; stepped-up industrial development efforts; a start on Northwestern Illinois University construction as soon as zoning is adopted; erection of homes, apartments and a new Granite City post office; new motor hotels; expansion of the Granite City Army Depot mission; Madison drainage improvements; efforts to provide a traffic underpass at the Broadway crossing in Venice, and to widen Nameoki road; continued modern-

ization and extension of telephone, electric, gas and other utility services; major Corps of Engineers civil works; construction of new schoolrooms; further improvement of retail store services; an ample supply of mortgage and loan funds; increased governmental spending; and the basic soundness of the local economy.

Conditions which add to the prospects of greater prosperity for the Quad-Cities are the present room to grow, the diversity of industry, the spacious plant sites with access to all types of transportation, the ever-improving educational, cultural and recreational climate and the rapid midwestern population growth, which is providing a greater demand for consumer goods.

Adoption of county zoning early in 1963 is seen as essential in broadening the economy of communities in this area. Other needs cited are improved performance by governmental officials and solution of the pollution-drainage snarl currently blocking additions to the Granite City sewer system.

In summary—good prospects, with some problems but a genuine opportunity for progress.

## Granite City Steel Co.

By Nicholas P. Veder,  
Board Chairman & President

Although Granite City Steel's 1962 production was not significantly less than in past years, it was distributed unevenly over the 12 months.

We produced 31% of our total for the full year in the first quarter and only 21% in the third, which was the low point of the year for Granite City Steel as well as the steel industry as a whole.

The demand for steel has been picking up modestly in recent months as confidence in the economic outlook has improved.

**First Quarter Outlook**

We now look for business in the first quarter of 1963 to be somewhat better than it was during the last six months—although by no means the equal of our record-breaking first quarter in 1962.

Intense competition has become a way of life in the steel industry. Domestic and foreign producers alike are struggling for every available order.

This environment poses a real challenge to a comparatively small, independent company like Granite City Steel.

**Competing Mills**

To the north in Chicago no distance at all as far as steel shipments are concerned—are competing mills with over 12,000,000 tons of flat rolling capacity and more coming in.

There is another 8,000,000 tons of flat rolled capacity in the Ohio River Valley west of Pittsburgh. The mills in the Pittsburgh area also ship into our

market area, as do other mills as far away as the Gulf of Mexico.

Seven of our competitors, including the eight largest steel companies in the United States, maintain sales offices right here in our own metropolitan area.

**Efficiency Essential**

Granite City Steel can survive and, even, prosper. We must, however, continue to improve the operating efficiency of our plant as a means of achieving lower production costs.

This is essential if we are to maintain the earnings needed to support a continuing, heavy investment in new facilities.

And those facilities are, in turn, essential.

We must have them—as well as an all-out effort on the part of every Granite City Steel employee—to produce flat rolled steel products with the superior quality required to win new customers and more business in today's steel market.

**New Production Units**

We added two significant production units to our plant in 1962.

One is a continuous annealing or heat-treating unit that will help make us a stronger producer of tin plate.

The other is a continuous galvanizing line that is allowing us to enter the rapidly growing market for flat galvanized steel.

**Changed Requirements**

Now under construction are two more units designed to meet changes in the steel requirements of some customers.

Many of the newest fabricating plants are designed to be fed with steel from coils. Other customers are installing their own lines for shearing coils of steel into sheets.

As a result, we are installing coil processing lines in both hot rolling and cold rolling departments. These will give us closer control over flatness, surface and other quality aspects of our coil shipments.

We believe Granite City Steel has the skilled manpower needed to maintain our position as one of the fastest-growing steel companies in the United States.

## Madison County Farm Bureau

By Truman W. May, Farm Advisor

Farm income in the Granite City area in 1963 will be determined to a great extent by the weather. With reasonably good weather, not too dry or too wet, the income should be about the same as the past several years.

Some people will say, correctly, that farm income on the average has not been very good, due partly to increasingly higher expenses in operating the farm business. However, modern methods of crop and livestock production have increased the output per farm, which helps farmers avoid losses.

Net income from the farm in 1963 will be maintained at the same level as in 1961 and 1962. In the opinion of U. S. Department of Agriculture experts, the revenue, costs tip slightly.

The outlook for 1963 points to another year of relatively small changes in prices of farm commodities, production and marketing. Government payments to farmers in 1963 probably will be higher than in 1962, but the rise in production expenses in 1963 may be large enough to about offset the prospective gain in realized gross farm income.

Net farm income this year is expected to at least equal last year's \$12.8 billion, which was the highest since 1953 and slightly above 1958.

The volume of farm marketing has been maintained at the record level of last year, and prices have been slightly higher reflecting increased support

**Payable Bag Prices**

Hog prices have been favorable relative to grain prices since the fall of 1960 and will likely continue favorable next year. Considering both costs and gross income, profit prospects from producing hogs in 1963 appear to be only slightly less favorable than in 1961 and 1962.

Although the number of cattle slaughtered in 1962 likely will be up about 2% from a year earlier, total pounds of beef produced will have a smaller percentage gain over 1961, reflecting gains in average weight of cattle slaughtered.

Cattle slaughter in 1963 will depend in part on weather conditions. Government payments to farmers will be about the same as in 1962, but the rise in production expenses in 1963 may be large enough to about offset the prospective gain in realized gross farm income.

**Grain Supplies Declining**

Feed grain supplies in 1962-63 are down 14 million tons from a year earlier and are expected to decline by a similar amount in the coming year. Feed prices will average at least as high as the past year and may be higher.

Soybean production in 1962 is estimated to be three per cent below last year's record, but a larger carryover on Oct. 1 boosted total supplies to a record level.

Heavy feeding of livestock, coupled with brisk export demand, is expected to boost earnings but the seasonal swing in prices probably will be small, as was the case last year. This

turn, essential.

We must have them—as well as an all-out effort on the part of every Granite City Steel employee—to produce flat rolled steel products with the superior quality required to win new customers and more business in today's steel market.

**New Production Units**

We added two significant production units to our plant in 1962.

One is a continuous annealing or heat-treating unit that will help make us a stronger producer of tin plate.

The other is a continuous galvanizing line that is allowing us to enter the rapidly growing market for flat galvanized steel.

**Changed Requirements**

We believe Granite City Steel has the skilled manpower needed to maintain our position as one of the fastest-growing steel companies in the United States.

## Laclede Steel Co.

By W. M. Akin, President

Management must continually forecast trends in business, not only for the short range, but also for the years ahead. Processes and plants must be changed or enlarged and, at times, abandoned.

The situation is never static, change is constant, and sometimes very rapid. The ever-present danger of allowing obsolescence to engulf and destroy a property is one of management's most difficult problems.

The early recognition of a disastrous change, then prompt remedial action is necessary for survival. Changes apply to markets and products as well as to the physical properties of a company.

**Severe Competition**

In the steel business, we are faced with very severe competition both from abroad and from other domestic producers. The nation's steel capacity is now overbuilt and is too great for foreseeable needs.

Our costs, which have been unable to control, have risen so high that we have priced ourselves out of the world markets. Unfortunately, at the same time, the industry is left with many inefficient plants that may never be shut down.

All of us in the industry, facing these conditions and recognizing a continuation of a severe profit squeeze, are taking various steps to counteract these conditions. High-cost plants are being abandoned, as there is no other choice.

**New Methods, Products**

Heavy investments in improved equipment and more efficient processing are being made to reduce costs. Our new types of steel—better, stronger, and lighter—are penetrating new markets.

To handle world competition, we must get the help of both our national and local governments. Certainly our taxes in regard to income and property depreciation must compare with the tax structure of our overseas competitors if we are to continue as a prosperous, competitive business.

That, our tax structure is generally regarded as the worst in any industrial nation. This situation is on general recognition and may be corrected by the new Congress.

**Effect of Taxes, Costs**

The coming year will, I believe, be better for the steel business than 1962—certainly better than the last half of 1962—as sentiment has improved steadily in the last month.

Due to a rising demand, many of our customers are ordering in larger volume. The construction business as a whole should consume greater tonnage. Automotive, appliance and agricultural consumers are more active than a year ago.

All in all, barring the unforeseen, we are on the upswing for the first six months. Beyond that, much depends on our ability to control costs.

**Government Policy and Restraints**

Government policy and restraint by bargaining agencies are likely to be the major factors in helping or hindering business progress in 1963.

## Bi-State Development Agency

By Leo A. Fisher, Chairman

Forecasting the economic situation for 1963 is fraught with many possibilities of error, since both national and international events can have major influence on the economy.

However, assuming no major changes of political significance, business activity in the first half of 1963 should remain close to present levels, with some gains in particular fields.

On a more local level, the start of a long-term improvement in the general economic activity may be initiated through the successful establishment of a unified metropolitan transit system.

**Unsettling Influence**

It seemed not too long ago that improvement in the daily movement of persons may tend to unite this Missouri-Illinois District into a single economic unit, with mutual benefit to all parts thereof.

Historically, improved transportation has been responsible for combining diverse geographic areas into nations of essentially one level of economic activity.

There is no reason that improvement in mass transportation, which is a more local level.

**Wharf Expansion**

Also in the field of improved transportation, the expansion of the public wharf and terminal operated by Bi-State Development Agency at Granite City, has been continued to assist the local economic climate.

It speaks well for the competitive position of the Granite City region when it is recognized that this is the only public terminal on the Mississippi River inland waterway system which is wholly self-supporting without recourse to general tax funds.

This terminal can expand and grow even in direct competition with tax-supported facilities, indicates that it is filling an essential need for the industries of this region. If and when additional capacity is needed, it can be provided without use of public funds.

seas competitors if we are to continue as a prosperous, competitive business.

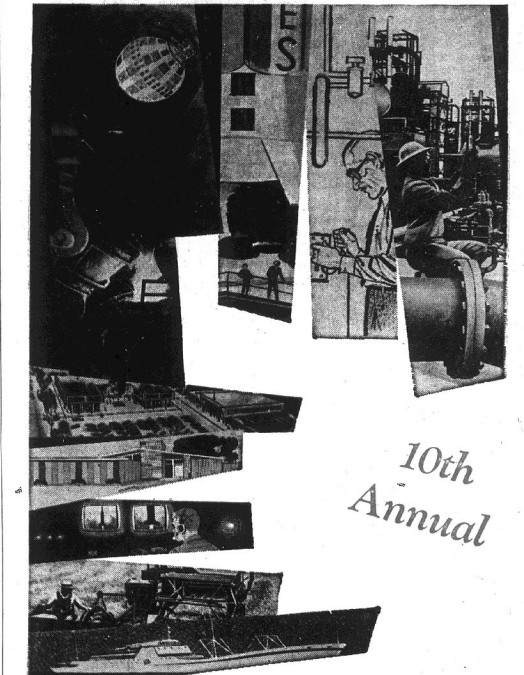

Those pledges we have kept. We intend to go on during 1963 doing more of the same. We value your business, but realize that in order to get it we have to be better merchants.

**More, Better Stores**

From Venice, through Madison and Granite City, and on out through Mitchell, there are more and more stores to serve you.

All of our business districts have gone all-out to make themselves more attractive, with new stores, remodeled store-fronts, and just plain better housekeeping practices.

Downtown Granite City, leading the way, inaugurated a gigantic program of special activities to attract more customers with not only sales promotions, but brought forth such special events as Dixieland band concerts as the highlight of a special

## Associated Retailers & Civic Association

By Maurice Rich, President

At this time last year, I predicted that the merchants of the Tri-Cities would make an all-out fight to not only retain the customers we had but that we would use our imagination and ingenuity—as well as real hard work—to gain more of you people as customers during 1963, despite the threat of discount houses and other forms of new merchandising techniques.

I said then that we weren't cry-babies, that we wouldn't ask for special considerations from anyone and that we would strive to make our stores more attractive; that we would, by offering better prices and wider selections, gain more of you as customers.

Those pledges we have kept. We intend to go on during 1963 doing more of the same. We value your business, but realize that in order to get it we have to be better merchants.

**More, Better Stores**

From Venice, through Madison and Granite City, and on out through Mitchell, there are more and more stores to serve you.

All of our business districts have gone all-out to make themselves more attractive, with new stores, remodeled store-fronts, and just plain better housekeeping practices.

Downtown Granite City, leading the way, inaugurated a gigantic program of special activities to attract more customers with not only sales promotions, but brought forth such special events as Dixieland band concerts as the highlight of a special

cial Gaslight Square Days.

But what of 1963?

**Expanding Market**

Every sign points to an expanding market during the next twelve months. The upswing led by the surge started by the automobile dealers early this fall, should continue into next year.

There are other, more definite signs pointing to the same conclusion.

The chief reason this area should continue to have an expanding retail market is the fact that the Tri-Cities is a vibrant, rapidly expanding territory.

**14 New Families Weekly**

Our Credit Bureau records show that 14 new families—on the average—move into this area every week.

But the key to retail success is the realization that a community of merchants must never allow itself to become complacent, to rest on its oars, as it were.

We intend to work hard to meet your purchases, to give real values at prices that can't be beat anywhere—be it a "card" store, a discount house or the department store giants.

We are determined to demonstrate to the public that these other types of stores can't possibly perform miracles, that they can't buy from the same manufacturer as we do and sell for less than we do.

Their ballyhoo to the effect that they can will be punctured.

**Values, Personal Service**

There is a real place for stores like ours... the small independents... which offer honest values, personal service and shopping pleasures without the gimmicks of membership cards, etc.

This battle between the small merchant and the giant store is the main reason, I believe, that 1963 will be a big year for Tri-City retailers, because it will make all of us better merchants.

The big winner, of course, will be you... the customer... who will receive more and more bargains, better service and better prices.

## Dow Metal Products Co.

By Gerhard Ansel, Plant Manager

With the completion of our construction and equipment modification program, the Madison plant of the Dow Metal Products Co., a division of the Dow Chemical Co., became more deeply entrenched in the aluminum market this past year.

In the same period, the already highly-competitive market became even more a struggle among major producers for the elusive profit dollar.

The year's end found us with the pound volume of sales up, essentially in the military vehicles field, but with profits virtually the same. Deterioration in the pricing structure offset any gains due to volume.

**Production Experiences**

As our gain experience in producing aluminum rolled products, we will better meet the high quality of product standards demanded in the aluminum industry, and measurable improvements in sales are anticipated.

In spite of a previously expected general business softening in the first half of the year, which now seems less likely, we foresee improvements in the aluminum markets such as

building products, major aircraft, missiles, and military vehicles.

We anticipate a 5% improvement in sales revenue in 1963.

**Magnesium Tooling Plate**

Magnesium products are expected to hold at almost present levels, with an increased use of magnesium tooling plate offsetting a probable drop in aircraft demands for this metal.

Developmental efforts being exerted in magnesium for use in the printing field, too, look promising.

Gains in magnesium will not be startling, but this unique metal, which Dow has proved itself the major reliable producer, will continue to be a steady mainstay in the plant's growth.

**Employment Stable**

Employment remained stable during the year and is expected to hold at about the same level, with perhaps modest gains.

The plant's safety program continues to reflect our policy and motto of "safety first," with increased emphasis on the responsibility of the individual supervisor and employee for a safe working place.

Their ballyhoo to the effect that they can will be punctured.

**Values, Personal Service**

There is a real place for stores like ours... the small independents... which offer honest values, personal service and shopping pleasures without the gimmicks of membership cards, etc.

This battle between the small merchant and the giant store is the main reason, I believe, that 1963 will be a big year for Tri-City retailers, because it will make all of us better merchants.

The big winner, of course, will be you... the customer... who will receive more and more bargains, better service and better prices.

# BUSINESS REVIEW AND FORECAST

## Granite City Army Depot

By Col. John M. Ansley, Commanding Officer

The year 1962 marked the end of a fine 20-year relationship between our Depot and the United States Army Corps of Engineers. On Aug. 1, we became a part of the newly-activated Army Supply and Maintenance Command. With this new organizational relationship, we assumed a new name: the Granite City Army Depot.

The impact of this new relationship on the Depot may be considerably expanded.

At the present time, the Supply and Maintenance Command has several teams studying the Army system of Depots, nationwide, to determine the future of the entire Depot system, and specifically each Depot may be.

The ideal location of Granite City Army Depot, with its excellent rail, water, air and highway communication facilities, and its position near the geographical center of the United States, will certainly mitigate in favor of the continued use of the Depot, and will make it a likely candidate for expansion and utilization.

**Skilled Labor**

The excellent industrial facilities located in the immediate vicinity of the Depot, and the ready availability of all types of manual skills from the nearby labor market, further enhance the performance of any missions the Depot is called upon to undertake.

## First Granite City National Bank

By Harold R. Fischer, President

A forecast for 1963, to be of value, must give proper consideration to the optimism and strength of our area. Confidence is a wonderful asset—it permeates and lifts the economy as a cake of yeast does a loaf of bread.

Although our metropolitan economy is closely tied to national and international developments, this area has a sufficiently wide diversification of industries and services to justify our expecting a good year in 1963.

At this stage, clearer aspects for the forthcoming year are unfolding, and '63 should be brighter than '62.

**University Construction**

Southern Illinois University can soon be expected to announce completion of drawings, specifications and the letting of bids for several buildings to be constructed in the first stage of the development program involving an overall expenditure of \$25,000,000.

Construction will also start in '63 on a Student Union Center costing several million dollars to be built with funds from students fees and revenue bonds.

During the next year, construction on state and federal highways and bridges in this area will require many thousands man hours, and as those workers

## National Lead Co.

By Lawrence F. Gerat, General Superintendent

National Lead Co., one of the oldest and most diversified corporations, was established in 1888. In that year a number of manufacturers, mostly well-established firms, each supplying its own section of the country, were brought together under one name.

One of them in Philadelphia started business in 1772. In 1776, the Declaration of Independence was signed and in 1781 Cornwallis surrendered at Yorktown, bringing freedom to the American colonies.

Consequently, the roots of the company reach back to the very birth of the United States.

**Trademark 60 Years Old**

In 1907, the well-known trademark of the Dutch Boy was established and it has become a symbol of quality products.

When this trademark was established it was basically to cover lead and paint. National Lead Co. products. However, since that time, it represents a broad, diversified range of products, almost too numerous to describe.

At one of the Granite City plants, the "Rory Plant," which began operations under the company in 1904, over 2000 different types of products and alloys are produced. A blast furnace operates around the clock to melt and refine scrap materials from batteries and other types

of drosses, and it converts the oldest indurated lead of scrap back to usable materials. This plant makes all types of metal, sheet lead, solders, bearing metals, shot for ammunition and so on. It is also the manufacturing of fast-flow machine steels, plumbers' lead, and pipe and fittings for gas, water and electric power cables.

**Growing Use For Lead**

There seems no end to the uses to which lead is put; it has an ever-increasing use in atomic energy and under foundations of buildings, as well as in a new aircraft, which uses a lead neoprene lining as a barrier curtain as a natural continuation of inner sound barrier material.

The Steel Package Plant began operations in 1909, making containers for white lead. However, today this plant makes a full line of small steel drums. These containers are used by many different industries, such as paint, chemicals and under foundations of buildings. They are also used in the manufacture of lead-acid batteries.

Even nuts, bolts and wire are packaged in EN-LECO steel containers. Many types of these containers are made, among them being the lub cover pan, the kerene-type utility can, and the standard drum. These containers vary in size from two and one-half gallons to six and one-half gallons. The containers are furnished with almost any finish from solid colors to beautiful many-colored lithographs.

## Tri-Cities Chamber of Commerce

By Chester L. Baker, President

The popular pastime known as year-end forecasts is seasonal to attract as many adherents as bridge while offering about the same rewards as Russian roulette. Here are my predictions, anyhow.

The outlook for Tri-Cities area business for '63 is generally favorable, with a good overall performance expected.

This optimistic look-ahead is based on a number of fundamental economic factors. Personal income will be higher, retail sales are expected to rise above the '62 level, and overall manufacturing employment will be up substantially.

Prospects are bright for federal tax cuts which—if voted in time—could boost our area's growth considerably in '63.

**Zoning Adaptive Vision**

The County Board is expected to vote favorably on the proposed Land Use and Zoning Plan for the unincorporated areas of Madison county next month.

When the much-needed plan, for which the Chamber has worked so hard, is adopted, Southern Illinois University will proceed immediately with the construction of the new Southwestern Campus, which will pump \$25 million into our economy.

The Zoning Plan will provide for the orderly growth and development of the areas outside corporate limits of our cities.

Because proper zoning is a fundamental necessity, its adoption would help the Chamber's Development Committee to carry out its efforts to attract additional payrolls to the area.

**Home, Highway Construction**

Solution of the Granite City problem of a residential area would end the state ban on further residential real estate development.

Next year, the state will acquire the right-of-way for the Riverfront Highway (I-55), which will not only provide a first-class access to the entire community but to our harbor and prime industrial land.

The Chamber has labored for

## County Zoning Committee

By Alton W. May, Chairman

Thanks for again asking for my predictions of things to come.

As before, it is my natural impulse to look at county rather than purely city problems, and to look for ways in which they can be solved to the mutual advantage of economic growth.

Since it is impossible for any of us to actually look into the future, we must make our predictions on the basis of what we believe to be the natural or logical outcome of certain events that have gone before.

**Progress Up To People**

It then becomes our prerogative to either let things go or observe the results of our efforts, or to take an active part in making one thing happen so that another will logically follow.

The obvious conclusion, then, is that if we all join together in a concerted effort towards goals that we think will be more positive and more constructive.

My prediction, therefore, is that if the people of Madison county want progress, and if they take an active part in promoting this progress, then they shall see their efforts rewarded.

## Johns-Manville Products Corp.

By A. W. Buechner, Plant Manager

The continued high level of activity in the construction of the new Johns-Manville plant for the local Johns-Manville roofing plant.

According to an industry study just completed by Johns-Manville, total construction expenditures for 1962 should reach a record \$83 billion. New construction should account for about \$61 billion, equal to or somewhat above record levels established in 1962.

The J-M plant indicates that an additional \$22 billion should be spent in 1963 on maintenance and repair of existing structures.

**Sales Stimulus**

This continuing dynamic growth of the construction industry should stabilize and possibly have a stimulating effect on markets presently serviced by the plant.

The J-M Madison plant produces a wide variety of asphalt roofing products for homes, commercial, institutional and industrial buildings. In addition, the plant stocks and distributes a complementary line of J-M asbestos-cement roofing and siding shingles. Fiber-glass home insulations and other allied building materials.

To keep pace with the growing construction market, the plant has completed several expansion programs in the last 18 months.

**Warehouse, Loading Wells**

Among improvements recently completed at the plant is a new, modern 40,000-square-foot warehouse equipped with three loading wells providing dock space for trucks and trailers.

Each of the 11 loading stations has been equipped with automatic weighing systems, customer loading and assure employee safety in materials handling.

## Granite City Trust & Savings Bank

By Ernest A. Karandjef, President

Before commenting on what we expect to occur in the business community for 1963, it might be well to review just briefly some of the things that happened in 1962.

As we expected last year, general conditions were better in 1962 than in 1961. However, a good many anomalies have appeared.

In spite of many forecasts of poor business conditions during the year, business generally has been very good. The stock market has reacted very favorably after a vast decline in values during the middle part of the year.

**General Confidence**

It would appear that the investment of this country has confidence in our economy.

With regard to 1963, it would seem that general business expectations are good. One of the real strong factors of our economy is the extremely favorable reception of the 1963 automobile models.

Manufacturing, construction, industrial production, construction activities and employment continue at a high level.

While many forecasters feel that 1963 could be a year of mild recession, it is our feeling that 1963 will be a good year for all of us.

We here at Granite City Trust continue with confidence in our community, and we are making every effort to maintain the high quality banking service that we have offered this community for 53 years.

## American National Bank of Granite City

By Harold F. Karandjef, President

As 1963 begins, we are confident that the resources of the Tri-Cities make possible opportunities for economic development that exceed those of any comparable area within many miles.

Because of our efficient and well-trained manpower, well-managed industries, proximity to markets and effective transportation facilities, we can continue to increase our working force and improve our general prosperity.

Our area's advances during 1962 appear to have fallen short of those projected and desired, particularly in Granite City, where the failure to take more rapid strides to correct our shortcomings in river pollution and storm drainage appears to be retarding our advancement and growth.

As no new subdivisions may be started until these difficulties are solved, it is not possible to indicate the rapid growth of the Tri-Cities during 1963. These shortcomings do not attract new industry, making it difficult to forecast any substantial industrial growth during 1963.

**20% Increase**

Deposits on an average show an increase of approximately 20% during 1962, and a similar increase shown in the number of customers.

It was to be expected that the increase would show a substantial increase in the rate in interest paid on these deposits by the bank, and that interest would be increased.

It is to be hoped that street improvements may be made in the Nankook area during 1963.

**Improve Nankook, Johnson Road**

Nankook road seriously needs widening, and we commend the city administration and the state highway department for having plans prepared for this work. As this is the second most-travelled road in the Tri-Cities, it is assumed that this will go forward during 1963.

The most used street, Johnson Road, is also in need of improvement in order to carry the increased traffic from the Nankook road more efficiently and thus lessen congestion in the area.

Correcting these two streets can lessen congestion for many years in the future, and will lead

## Union Starch & Refining Co.

By John McBride, Vice-President & General Manager

Prospects for 1963 look large on the horizon throughout the world because considerable adjustments will have to be made by all countries and the world organization known as the United Nations.

Since its founding, the United Nations has been charged with the task of maintaining peace and keeping peace, but has found itself confronted with the same old "give and take" movement of the major countries, which will use their threat of force in order to maintain the peace when they affect them personally or their sphere of action.

The coming year will be fraught with the danger of ideological split between Russia and Red China. This is not a new situation, but one that has been coming on since China fell into the hands of Communist political leaders.

The Oriental way of thinking is not compatible with that of the western or Caucasian world. Even though they profess to be Communist, they are not Communist.

**Threat of Conflict**

The schism can possibly lead to outright armed conflict between the Russian bloc and the Chinese bloc, which, in turn, can seriously affect the western bloc.

It has not been possible in the past for any large nation to group of large nations to avoid involvement in a major war. If Russia and China are engaged in armed conflict, it is entirely possible that the United States will be drawn into the war on the side of Russia.

There still is a similar paradox to the one we faced in World War II, when Russia was our ally and China was our enemy. History has proven that Russia has been and would be a voracious devourer of land, and would demand new lands over which to spread her philosophy and way of life. This

is the most frightening prospect of 1963 as far as the world is concerned.

**Pollution, Fluoridation**

The prospects for 1963 in Granite City continue as the United trend started several years ago, as the people and the political leaders continue their attitudes which led to the defeat of the sewerage-pollution "regulate" movement. It is hoped that the mandates of the people by refusing to institute fluoridation of the water and to take other progressive steps in behalf of the city and area.

Most every step taken by the political leaders has been of a non-constructive nature designed to discourage the economic stimulation necessary for Granite City to grow and develop into a dynamic on-going city.

When the new sewerage disposal program comes into existence through the use of outside engineering firms and consulting experts, it adds another "nail into the economic coffin" of the city and area.

**Expansion Shelved**

We, at Union Starch, find it impossible to believe that Granite City is going in any direction but down just like our large neighboring city in St. Clair county.

The next step in the city's expansion has been shelved and the decision has been made to halt all capital expenditures in the local plant.

For any large plant will be leveled off at its present level or will probably be reduced.

The need for expansion will probably be in some other country and city rather than in Granite City.

We regret that the business men and professional men who voted to grant to Granite City growth for their continued livelihood are not particularly concerned about the future of the

to the building of shopping centers and other stores in the area to permit our merchants to provide a higher percentage of our needs.

**Need For Buying At Home**

Sales tax statistics, while showing some improvement over the past ten years, indicate that many of our residents buy elsewhere. A climate must be prepared for merchants to make it possible for local buyers to buy from local sellers, thus keeping our sales tax dollars for our own use, and thereby lightening the tax load on each individual.

There are many accomplishments during the past months. For example, it is pleasant to see how the improvement of Madison Avenue from Sixteenth Street to the new bridge has resulted in refurbishing of buildings on this street, denoting the pride the owners, businessmen, and merchants have in their area.

As has always been true in the past, and will continue to be true, there are many difficult tasks to be faced in the year ahead.

It is our duty to work together with pride and confidence in our community to solve problems as they arise, to assure ourselves of a dynamic, forward-looking area in which to live.

**Political Leadership Vital**

Industry is not dependent upon Granite City's growth, because we will continue to have our employees and production facilities in the area. The population may shrink to a few thousand, but such shrinkage will really reduce the number of those who do little or nothing for the good of the town.

The general economic prospects for the area during early 1963 should be good, but a slackening-off will no doubt come late in the fall as the economy adjusts itself for the long growth period that is ahead on the national scene.

Whether Granite City benefits from that long growth cycle which we will enter in 1964 will be determined by the one factor—the calibre of political leadership it receives in 1963.

## Tri-City Regional Port District

By Carl A. Rault, Chairman

The year 1962 started out with the Tri-Cities Regional Port District still having a number of legislative and financial problems to overcome before the Port could become a reality.

Further, during the first few months of 1962, there was an extreme reluctance on the part of any major firms to consider expanding into this area with new terminal handling facilities, plants or processing facilities. A lot of this reluctance was and continues to be the result of the nation not having a firm transportation policy.

There is considerable apprehension in all phases of industry due to the fact that no long-range rates can be depended upon from our three major carriers. However, with the so-called market crash of May, 1962, a number of major firms apparently decided that they no longer could afford to hold up plant relocations and expansions until the transportation and other problems facing industry were worked out.

**Many New Prospects**  
As a result in the change of the entire atmosphere, the stock market decline of May, the Port has been able to obtain a number of new prospects for plant locations, terminal facilities, processing facilities, etc., in connection with its attempt to build a containerized integrated Port on the Chain of Rocks canal and utilizing certain areas in the northern part of Madison county for new industry.

This increased interest in the area has resulted in the year of 1962 ending with the Port in a position that it has never before occupied or allotted to various activities the entire parcels of land controlled by the Port on the Chain canal.

In addition, negotiations are going on for other sites in the north half of Madison county for facilities for Madison county, Ill., without having to resort to any type local financial aid. Facilities contemplated would be self-supporting and the revenues derived from their leases would support the construction in order that there will be no additional load on the present local taxing structure.

As outlined in the past, the Port's major attempt is in the field of cargo handling and rate reduction to benefit the existing industry already successfully operating in this Tri-Cities area.

Along with our ability to effect new cargo handling procedures and possible rate reductions, it is felt that the Port's main contribution to the local economy would be through effecting savings on this present industry.

**Favorable Atmosphere**  
Naturally, such a situation creates a favorable atmosphere for new industry to look to the possibility of operations in this area.

The Port's major function, however, is in the field of cargo handling, processing and transportation. The major portion of the Port's effort is to attract new industry from outside the area is handled by the local Chamber of Commerce, and the Port only works with such industries that have high in and out-bound tonnages.

In this attempt to attract new industry, the Port and American Chamber of Commerce, the Tri-Cities Chamber of Commerce

and the East St. Louis Chamber of Commerce have all cooperated very successfully during the year with all efforts directed to attracting new industry to this overall area.

**Major Plant Relocations**  
As the year ends, the Port is presently working on five major plant relocations to be completed by the year 1963. At the present time we are hopeful that we will be successful on, at least two.

Due to the continued increase in plant relocation prospects and the continued increased attractiveness of this area to outside industrial firms, it is believed that during the 1963 year the various Chamber of Commerce activities and the Port will result in increased plant facilities of importance.

In the Tri-Cities Port, in the cargo handling areas of our plans, it is true that financial and bonding requirements continue to plague some of the Port's efforts. However, it is encouraging to note that a number of the facilities that are supported by private industry to go into this Port area have been held in abeyance pending ability to get our initial start.

The Port has been fortunate in that it continued to be able to work under its original Port Board members. Each member of the board has contributed his services in the interest of this development and, to date, the Port has only lost one of its original members, and that was through election to public office which would not permit further service on the board.

It is felt that through the dedicated efforts of these local citizens serving on the Board, there can be little doubt but what the eventual outcome of the Port will be successful.

major portion of the Port plans will be accomplished and will permit the Port to turn to those portions of its long-range plans that have been held in abeyance pending ability to get our initial start.

The Port has been fortunate in that it continued to be able to work under its original Port Board members. Each member of the board has contributed his services in the interest of this development and, to date, the Port has only lost one of its original members, and that was through election to public office which would not permit further service on the board.

It is felt that through the dedicated efforts of these local citizens serving on the Board, there can be little doubt but what the eventual outcome of the Port will be successful.

Therefore, in light of the developments of the past few months, the Port will be successful during the year 1963.

Therefore, in light of the developments of the past few months, the Port will be successful during the year 1963.

## BUSINESS REVIEW AND FORECAST

### Illinois Power Co.

By Carl Mathias, Service Area Manager

The use of electricity and gas by present customers has continued to increase in the Tri-City area in 1962, and this growth is expected to continue through the year 1963.

In addition, there has been a growth in the number of new customers added to Illinois Power Co. electric and gas lines.

During 1962, additional supplies of natural gas were made available for residential, commercial and industrial customers. The supply is expected to be large enough for most additional uses throughout 1963.

**Enough Gas For All**  
This is the first time that Illinois Power Co. has been able to furnish gas to all customers for practically all uses in more than a decade.

The additional gas is available as a result of increased gas pipeline deliveries, plus the development of underground storage areas in three locations in southern Illinois by Illinois Power.

Extremes in weather continue to have an important impact on Illinois Power Co. deliveries of both electricity and gas. The humid summer days are in the cause of peak loads on the electric system as air conditioning and fans are put to maximum use. Extreme cold weather results in heavy gas use for heating.

ing, in addition to increased electric use.

**Continue Construction**  
Weather conditions cannot be forecast a full year ahead, so Illinois Power will continue its construction program to bring natural gas service to its maximum possible use by its customers.

During 1963, Illinois Power will construct substations, install transformers, and build new transmission and distribution systems in this area at a cost of several hundred thousand dollars.

These electric department improvements include fortifying those areas where past experience indicates the need for more capacity because of increased usage and extension of service to new customers.

**Reserve Capacity**  
The construction of an additional generating unit at our Wood River power plant is well under way. This new unit will be the largest in our system, with a generating capacity of 385,000 kilowatts, which is sufficient to supply the electrical needs of a city with a population of 100,000.

This unit is scheduled to be in operation early in 1964 and will provide enough reserve capacity for any industrial or residential expansion in this area. In the case of industrial requirements, Illinois Power is able to furnish the electrical needs of almost any type of industrial plant that might decide to locate in this area.

**Available When Plants Ready**  
By the time any such plant could be built, its electrical requirements could be ready and available for use.

During 1962 Illinois Power engaged in an extensive gas construction program to bring natural gas service to many communities which had not previously had this service.

These communities included whole towns and also those on the outskirts of cities where new subdivisions had been developed. This construction program will continue throughout 1963, as we intend to provide natural gas service wherever possible.

**Protected Supply**  
It is still necessary for customers to intend to use gas for heating to make application for a permit to install gas heating equipment.

This requirement is to protect the supply of gas to serve those customers who have all the necessary equipment and equipment so that during peak demand days on cold winter days, those who depend upon natural gas for heating will have a sufficient supply.

At the moment, gas heating permits are immediately available. But, as in previous years, this supply could be sold out and heating applications placed on a waiting list again.

Our big job at Illinois Power is to provide adequate facilities to serve our customers' requirements even before their need develops. Our plans for the area are optimistic for 1963, and our construction program reflects this optimism.

Our big job at Illinois Power is to provide adequate facilities to serve our customers' requirements even before their need develops. Our plans for the area are optimistic for 1963, and our construction program reflects this optimism.

## American Steel Foundries

By A. P. Steinhilber, Works Manager

Uncertainties over national economic trends and the international situation make 1963 crystal ball gazing, at best, a precarious task.

At present, we are hopeful the Granite City plant will experience slightly improved business compared with 1962. But a sudden up or down trend in general business, a major international crisis, or a change in the railroad business situation could rapidly alter the picture.

As the railroads are ASF's most important customer for castings turned out in Granite City, the railroads' ability to buy is particularly vital.

**Ruhs, Taxes, Mergers**  
The question mark which looms over railroads since 1963 will be cleared away after certain thorny situations are resolved. These include:

- (1) The railroad's fight against burdensome work rules;
- (2) The passage of additional tax relief legislation;
- (3) The fate of pending mergers; and
- (4) The outside pressures of the international situation.

**More Freight Cars Needed**  
That the United States needs additional freight cars to meet today's transportation needs is a well-accepted fact. But, how the railroads can accumulate the funds to buy them is the problem.

There are some bright spots on the railroad horizon which, in turn, brighten the outlook for ASF.

Specialized freight cars, such as piggyback flat cars, which carry trailer trucks or containers, are attracting more business to the railroads. Larger freight cars carrying goods at higher speeds for longer distances are improving railroad service.

**Components Improved**  
ASF, in its Granite City plant, is producing the heavy cast steel components which carry these freight cars over the rails. And, in the ASF Product Development Laboratory at Granite City, im-

proved cast steel railroad car trucks are being developed.

One newly-developed ASF truck, the Ridemaster, could help boost ASF's sales in 1963. This truck was tested under the ASF test train during 1962 on runs between North St. Louis and Old Monroe, Mo.

The truck will last longer in high-speed service under modern capacity freight cars. It also cuts the number and intensity of lateral shocks inside the freight car by 10 times, a vital factor in reducing damage to freight car shipments.

**Plan For Giant Capacity**  
Other castings with sales potential, some designed to shoulder giant 150-ton capacity freight cars, are now on the drawing boards.

Although the railroad outlook is uncertain in 1963, we are confident the ASF Granite City plant will continue to make a substantial contribution to the economy of the Granite City area.

Even in the company's 1962 fiscal year, which was not a satisfactory year from an operations standpoint, ASF's Granite City plant paid \$373,837 to the community in wages and salaries. The plant averaged 612 employees in the year.

Even in the company's 1962 fiscal year, which was not a satisfactory year from an operations standpoint, ASF's Granite City plant paid \$373,837 to the community in wages and salaries. The plant averaged 612 employees in the year.

## General Steel Industries

By C. P. Whitehead, President

There has been much said and written about the so-called profit squeeze.

It has been particularly severe for heavy, basic industry such as ours, where relatively large amounts of money must be invested in plant, machinery and equipment.

At our Granite City plant, for example, we have invested over \$15,000 in new equipment provided for in capital assets for each plant employee.

**Fair Profit View**  
In order to assure continued operation and growth of such a facility, ways must be found to produce a fair return to those who have provided us with the tools to do our job.

Otherwise, the money necessary to expand the facilities and install equipment to make new products will not be available when needed.

Our plant here in Granite City went through 1962 at what was generally a fair profit level of operation. This was marred only by an unfortunate fire in the month of September.

**Order For Tank Hulls**  
Preparation for the month of September for the Army's M-60 tank for another 12-month period was assured by the receipt during November of a new order from Chrysler Corporation.

We are hopeful, moreover, that in recently-announced tax credit 1962-

for capital expenditures and depreciation reforms will enable our railroad customers to increase their purchases of sorely needed rolling stock. There is already some evidence that this will be the case.

Totaling all the variety of forecasts as to what will happen in 1963, we believe that with the diversity of industry located in the Quad-Cities, business in this area should be good in the coming year.

**Second Largest Rail Center**  
Being a part of the second largest rail center in the country, there is no doubt in my mind that continued progress in the Quad-Cities area means better business for the Terminal and the railroads serving the area—in 1963 and in the future.

Terminal's principal function is to handle the freight cars and freight cars in and through the Metropolitan St. Louis gateway, that year, we switched more than one million loaded freight cars containing every conceivable kind of commodity and consumer goods.

In order to stay competitive, it is obvious that this traffic must be handled with speed, dependability and economy.

**Pre-Blanketing System**  
One of the ways in which this objective is achieved—and one of the reasons why we expect to attract more and more freight traffic to this area—is through the Terminal's "pre-blanking" system.

Under this system, freight cars destined for delivery to the Terminal to a connecting line are grouped in a solid block when the train is made up before reaching St. Louis, thus avoiding expensive and time-consuming switching in the congested metropolitan area.

Cars handled in this manner are on Terminal rails an average of about three hours less than the time formerly required.

**Plan Further Increase**  
In 1962, approximately 60% of the Terminal's through business was given this expedited service.

**Lossless Future**  
The future of America is limitless.

The future of America is limitless.

The future of America is limitless.

The future of America is limitless.

The future of America is limitless.

The future of America is limitless.

The future of America is limitless.

The future of America is limitless.

The future of America is limitless.

## Terminal Railroad Association

By G. W. Maxwell, President

The year 1962 was a satisfactory business year for the Terminal Railroad Association. Loadings increased more than four per cent over the preceding year, and a number of major improvements were completed.

We are looking forward with confidence to a continuing increase in the level of business during 1963.

Despite the variety of forecasts as to what will happen in 1963, we believe that with the diversity of industry located in the Quad-Cities, business in this area should be good in the coming year.

**Second Largest Rail Center**  
Being a part of the second largest rail center in the country, there is no doubt in my mind that continued progress in the Quad-Cities area means better business for the Terminal and the railroads serving the area—in 1963 and in the future.

Terminal's principal function is to handle the freight cars and freight cars in and through the Metropolitan St. Louis gateway, that year, we switched more than one million loaded freight cars containing every conceivable kind of commodity and consumer goods.

## Granite City Board of Realtors

By J. C. Cochran, President

The wild hours of inflation have been galloping ahead for more than 20 years, pushing real estate prices to a new all-time high.

The peak of the market was reached about 1928, when this upward climb seemed to falter and slow down. A gradual pull back or leveling-off of market values since that time indicates that a breather of longer than usual proportions has developed.

Nationally, the real estate market has averaged a decline of 10% to 15%. Our local market, however, appears much more sensitive to local conditions, seems to have escaped a decline of 15% to 18%.

**Unusual Buying Opportunities**  
This has provided many 1962 home buyers unusual opportunities for good dollar value purchases, however.

Since 1962 fades into past history, both the national and local real estate market seems to have leveled out or reached a level of general stability. Total housing supply in prospect for the coming year, viewed in connection with anticipated demand, indicates generally that prices will be constant and generally stable well into 1963.

**Greater Choice**  
Most persons buying homes in 1963 will have a greater choice and an ample supply of mortgage funds with interest rates at present or slightly lower levels.

All of these factors add up to a buyers' market for most of the new year, barring any upsurge in the national economy. In new homes, with the bulk of the postwar housing demand, there seems to be an emphasis toward the construction of homes that appeal to a wide variety of specialized tastes of the public, from low-cost homes to semi-luxury town houses. It is apparent that variety characterizes the 1963 new residential market.

**Effect of Inflation**  
However, to those buyers in the new year who may hesitate to buy or build, waiting perhaps for lower prices and special bargains, it might be well to heed the true story of "land" and inflation.

It is well known that the value of the U. S. dollar has fallen 45% in the past 34 years since 1943 and is expected to fall even lower, year by year, as inflation continues.

Certainly, it presents a chance to take advantage of the temporary halt of inflationary land prices, a better - than - average time to invest in a growing, bright community, and last but not least, a fine opportunity to profit by true words of wisdom, "The land is rich in your future."

Certainly, it presents a chance to take advantage of the temporary halt of inflationary land prices, a better - than - average time to invest in a growing, bright community, and last but not least, a fine opportunity to profit by true words of wisdom, "The land is rich in your future."

Certainly, it presents a chance to take advantage of the temporary halt of inflationary land prices, a better - than - average time to invest in a growing, bright community, and last but not least, a fine opportunity to profit by true words of wisdom, "The land is rich in your future."

## BUSINESS REVIEW AND FORECAST

### St. Louis District Corps of Engineers

By Col. Alfred J. D'Arenzo, District Engineer

In the vast 26,000-square-mile water basin of the St. Louis Engineer District, one of the most rapid economic upsurges is beginning to emerge that promises an ever-greater development for the future. It will be hastened as the St. Louis Engineer District motivates its responsibility for a highly accelerated civil works program.

The challenge of expansion presented to the St. Louis Engineer District is no accident. We are a part of that greater process that our nation is undergoing to increase economic growth and elevate depressed areas.

**Dwindling Resources**  
The challenge is great, to provide for the future needs of our swiftly growing population and the same time make optimum use of our dwindling water resources.

Based on a conservative estimate, the national population will reach 195 million by 1965 and 214 million by 1970. One of the greatest challenges resulting therefrom is water resource development and power production, as water and power are the key to full economic maintenance in any area.

New philosophies and policies on a national level have opened the door to more comprehensive procedures in project formulation.

**Basins, Regional Planning**  
The comprehensive approach to water resource development is now firmly established. All future projects must be viewed as elements of integrated, overall basin or regional plans.

Moreover, all phases of water purposes and uses are now in the realm of Corps of Engineers consideration: navigation, flood control, water quality, water supply, industrial power, recreation, fish and wildlife.

The comprehensive or basin planning approach will be applied to projects in the Kaskaskia, Big Muddy and Salt River sub-basins and is presently incorporated into all planning for potential projects in the Meramec basin.

**Half-Billion Dollars**  
The work of the St. Louis District plays a vital role in the economy of the midwest-mid-Mississippi area. While the many values do not spell out the entire story, they do give a reasonable evaluation of the magnitude of Corps of Engineers projects.

**MAGNITUDE AND SCOPE (CURRENT)**  
**Fiscal Year 1963**  
Planning and construction \$22,000,000  
Operation and maintenance \$4,500,000

**TOTAL VALUE OF CONTINUING PROJECTS**  
\$325,000,000

Forty-four per cent of estimated value of continuing projects has been expended.

**FUTURE**  
Total value of continuing and newly authorized projects is about \$500,000,000. Twelve new projects have been authorized by the 87th Congress, Second Session, with a value of about \$200,000,000. Four of these projects alone total about \$180,000,000.

In addition, there is a potential backlog of engineering investigations work amounting to about \$1,000,000.

**CONSTRUCTION FORECAST**  
The construction program is expected to double from \$20 million in fiscal 1963 to \$40 million in fiscal 1965.

**Engineer Corps Projects**  
A thumbnail sketch of each St. Louis Engineer project follows to give readers a picture in depth as to progress, status, description, and benefits.

(1) The St. Louis Flood Protection Project involves the construction of some 11 miles of levees and floodwalls, 25 pumping plants and 44 sewer systems along 11 miles of St. Louis riverfront, extending southward from Maine Creek down to Chippewa street, extending to the St. Louis gage.

These works will protect the St. Louis riverfront, drainage facilities and extension of existing levees. This project has been a needed link in the construction of four other levees which, together, will provide protection to 51,000 acres of highly-productive agricultural lands.

The estimated federal cost of the entire project is \$53,300,000. During this fiscal year, a very important phase of construction amounting to \$380,000, will be accomplished and this amount will bring the total project to 93% completion.

The project is estimated to bring the total project to 93% completion. It is scheduled to be completed in June 1965.

**Inaugurated in 1943**  
(7) Perry Corps Drainage and Flood Protection Project in Missouri and Illinois involves the construction of 33 miles of levees. Purpose of this project is to protect 26,000 acres of highly-productive agricultural lands. In addition to the agricultural lands, the towns of Rockwood, Wood River, Roxana, East Alton and Alton from the highest recent floods.

The levee and drainage district encompasses some 13,700 acres of land. The project is now about 98% complete. Total cost of the project is approximately \$14,650,000. The amount of money to be spent on this project is \$500,000, which will complete the entire project.

**Local Improvements**  
(3) East St. Louis Flood Protection Project involves the construction of alteration of some 20 miles of levees and floodwalls, ten pumping stations and the alteration of four existing stations.

When this project is completed in 1965, it will provide protection against floods up to 52 feet, St. Louis gage, for 11 square miles of business, industrial and residential areas, including the cities of East St. Louis, Granite City, Madison View, Brookline, Fairmont and Monsanto.

This region is the second largest transportation area in the United States and encompasses one of the most dense industrial complexes in the United States.

**87% Finished**  
The project is now 87 per cent completed. The estimated Federal cost of this project is \$20,800,000.

During this fiscal year, other vital increments of construction, amounting to \$2,300,000, will be accomplished and this amount will bring the total project to 95% completion.

Total cost of the project is estimated at \$53,300,000. The project is scheduled for completion in 1965. It is 84% complete.

During this fiscal year, a very important element of construction will be accomplished with funds amounting to \$330,000, which will bring the project to about 86% completion.

**Multiple Purposes**  
(8) The St. Louis River Dam and Reservoir, otherwise known as the Joannas Reservoir, was authorized by the 87th Congress, Second Session, as a multi-purpose project for flood control, power, navigation, water supply, recreation, fish and wildlife conservation and other useful purposes.

The dam will be located about 63 miles above the mouth of the St. Louis River, which empties into the Mississippi above Louisiana.

It is estimated to cost about \$63,000,000. The reservoir will provide flood protection for about 27,500 acres of land in the basin, as well as reduction of floods in the St. Louis River area.

The project includes provisions for power production and a major element of the project is a large concrete dam.

**Barge Navigation**  
(9) The Big Muddy River and Beaucaumont Creek, which empties into the Mississippi River, is a major navigation route in the St. Louis area.

The project involves a large concrete dam and a barge canal, which will provide adequate navigation depths in the Big Muddy River and Beaucaumont Creek, to permit barge navigation to bring vast deposits of coal to the valley to regional markets.

The study is in the advanced stages and contemplates a major reconstruction of a portion of the stream and construction of modern navigation facilities.

A survey has already been made, and necessary hydraulic and physical data are presently being collected in the field.

Congress this year provided \$60,000 to continue work on this project.

**World Significance**  
From an engineering and construction viewpoint, this dam is one of the outstanding projects of its type in the world.

It is noted for its simplicity of design and its economic value. It is the first permanent barrier closure of a major river in the world, and it is a model for other dams.

The project was started in 1959. It was dedicated on Nov. 8, 1962.

The estimated cost is \$42,500,000.

**Carlyle Reservoir**  
(5) Carlyle Dam and Reservoir, which involves the construction of a 600-foot-long, 67-foot-high main dam and two earth-fill subsidiary dams, totaling 31,700 feet in length.

This reservoir will have a total storage capacity of about 83,000 acre-feet of water in man-made body of water in Illinois.

When this project is completed in 1966, it will afford major flood protection to about 75,000 acres of alluvial lands in the Kaskaskia River Basin.

**Add to Navigation**  
It will aid navigation and help reduce flood stages in the lower and middle Mississippi Valley.

It can provide a permanent source of water for 26 communities.

Finally, it will provide great recreation benefits to the people of Illinois and eastern Missouri.

This project is a part of the overall Kaskaskia River Basin development. The project was started in 1959. It is now 22% complete.

Estimated cost is \$39,250,000. During this fiscal year, other vital increments of work, amounting to \$3,285,000, will be accomplished, which will bring the total project to 43% completion.

**Link in Levees**  
(6) Clear Creek Flood Protection Project involves the construction of 21 miles of levees, one highway closure structure, drainage facilities and extension of existing levees. This project has been a needed link in the construction of four other levees which, together, will provide protection to 51,000 acres of highly-productive agricultural lands.

The estimated federal cost of the entire project is \$53,300,000. During this fiscal year, a very important phase of construction amounting to \$380,000, will be accomplished and this amount will bring the total project to 93% completion.

The project is estimated to bring the total project to 93% completion. It is scheduled to be completed in June 1965.

**Inaugurated in 1943**  
(7) Perry Corps Drainage and Flood Protection Project in Missouri and Illinois involves the construction of 33 miles of levees. Purpose of this project is to protect 26,000 acres of highly-productive agricultural lands. In addition to the agricultural lands, the towns of Rockwood, Wood River, Roxana, East Alton and Alton from the highest recent floods.

The levee and drainage district encompasses some 13,700 acres of land. The project is now about 98% complete. Total cost of the project is approximately \$14,650,000. The amount of money to be spent on this project is \$500,000, which will complete the entire project.

**Local Improvements**  
(3) East St. Louis Flood Protection Project involves the construction of alteration of some 20 miles of levees and floodwalls, ten pumping stations and the alteration of four existing stations.

When this project is completed in 1965, it will provide protection against floods up to 52 feet, St. Louis gage, for 11 square miles of business, industrial and residential areas, including the cities of East St. Louis, Granite City, Madison View, Brookline, Fairmont and Monsanto.

This region is the second largest transportation area in the United States and encompasses one of the most dense industrial complexes in the United States.

**87% Finished**

During this fiscal year, other vital increments of construction, amounting to \$2,300,000, will be accomplished and this amount will bring the total project to 95% completion.

Once more it is time to gaze into the crystal ball and come up with an economic prediction for the coming year. Nineteen sixty-two had its ups and downs, with mixed reactions in many companies. Some completed showed more profits, and many showed less profits.

I do not feel that 1963 will be much different. The well-managed, aggressive companies will show gains at least hold their own, while the weaker companies will lose ground.

During 1962, it became more evident that our government intends to play a larger role in controlling the course of business. Whether this will provide a shot in the arm for our economy, or have the opposite effect, remains to be seen.

**Tax Stimulus**  
However, it seems that if the income taxes, as cut during 1963, are maintained, there will be a great stimulus for our economy.

Tri-City Grocery Co. had about a 10% increase in sales in 1961, volume-wise as well as profit-wise. We did this with one less supermarket than in 1960.

We have no new stores planned for 1963. Our plan for 1963 is to open a few new ones in 1962, but are looking for good sites in Illinois and Missouri.

**Expansion**  
We are in the process of expanding our warehouse facilities in 1963. We are adding a large corner for the storage of additional eggs and frozen food.

The large freezer for the handling of additional frozen food. The sale of frozen food has grown tremendously in the last few years.

We also purchased in 1962 the Draper Planning Mill and are using it as additional warehouse space.

We have made these expansion moves so as to be able to buy our merchandise in larger quantities and have our products, and then pass this savings on to our customers.

**Pumping Stations**  
(17) Prairie du Pont Levee and Pumping Station, which empties into the Mississippi River, is a major navigation route in the St. Louis area.

The project involves a large concrete dam and a barge canal, which will provide adequate navigation depths in the Big Muddy River and Beaucaumont Creek, to permit barge navigation to bring vast deposits of coal to the valley to regional markets.

The study is in the advanced stages and contemplates a major reconstruction of a portion of the stream and construction of modern navigation facilities.

A survey has already been made, and necessary hydraulic and physical data are presently being collected in the field.

## Tri-City Grocery Co.

By S. E. Pershall Jr., President

Once more it is time to gaze into the crystal ball and come up with an economic prediction for the coming year. Nineteen sixty-two had its ups and downs, with mixed reactions in many companies. Some completed showed more profits, and many showed less profits.

&lt;

WEDNESDAY, DEC. 29, 1937  
The following items were taken from the files of the Granite City Press-Record

Mr. and Mrs. H. E. Carbaugh of Nameoki, who recently purchased a luxurious touring car of the latest design at a cost of approximately \$1000, left for their motor cavalcade of America yesterday and departed for their first extended tour of the world made in the modern Gipsy way.

His plan to visit many scenic spots in Colorado, New Mexico, Texas, Mexico, New Mexico, Arizona and California. They expect to be away from home at least three months.

After four months of trying, Vasil Gravitte and Mike Piro, two young men of Madison with a desire to be different from others, finally have found that growing beards is not as easy as they thought.

It all began last Labor Day when they decided to grow beards equal to that made famous by Senator J. Hamilton Lewis. Both visited barber shops this week and had their whiskers moved close to the skin.

Miss Hazel Frazer of Rockwood is here for a week's visit with her sister, Miss Ellen Frazer, who is at St. Elizabeth Hospital, and with Mr. and Mrs. John Wood and family of Denver.

Mr. and Mrs. W. J. Berger of Madison are here for a week's visit with their daughter, Miss Margaret Berger, who is at St. Elizabeth Hospital, and with Mr. and Mrs. John Wood and family of Denver.

### No Further Action On New Street

#### Justified Before Full Explanation

Aldermen Patney and Mrs. Betnetic acted in the public interest when they blocked Christmas Eve action on a controversial \$100,000 street construction proposal. They will have to remain silent, however, for the stage of the explanation, although it should be noted that two of the original proposals—a large motor hotel and an eventual link with West Pontoon road—now seem to be out of the picture.

As we said in 1961, there might be justification for a compromise arrangement at such time as the proposed Nameoki road shopping center reached the stage of definite commitments, although it should be noted that two of the original proposals—a large motor hotel and an eventual link with West Pontoon road—now seem to be out of the picture.

Certainly the plan is far from completion at present, and there is no justification whatsoever for further voting on the street resolution until what is proposed has moved out of its nebulous state and has been fully explained to the public. There should be a thorough exploration to determine the validity of realtors' fear that the primary motive is merely to build a street at public expense so that subdividers and private developers—perhaps even others—can gain a windfall.

If another motion for advancing the expenditure is made before all details have become known, there will have to be general agreement with a realtor's comment at the last council meeting: "This stinks."

In business the earning of profit is something more than an incident of success. It is an essential condition of success; because the continued absence of profit itself spells failure.—Louis D. Brandeis.

... in a free enterprise system there can be no prosperity without profit. We want a growing economy and there can be no growth without investment that is inspired and financed by profit.—John F. Kennedy.

Great Interest In County Board  
Action On Zoning During January

Attention of Madison county voters will be focused with more than usual interest on the actions of their supervisors and assistant supervisors during January. It is during the coming month that adoption of county zoning will be decided by the County Board of Supervisors.

Stands taken by a few of the board members, together with comments made during various zoning hearings and discussions, indicate that some of the opposition may stem from land speculators who hope to profit by future sale of property, unhampered by any thought of what effect the new use would have on adjoining property.

Those who have been outspoken against zoning also include individuals associated with types of enterprises which are not desirable in the midst of residential neighborhoods.

Because zoning does not apply to existing land usage, it injures no one. Neither does it harm those who desire future land use that does not damage nearby property. The only people potentially harmed are those who plan some future improper development; County Board members will hardly want to align themselves with such a faction and against the large majority who are willing and eager to be good neighbors.

Citizens' welfare can best be served by adoption of zoning, which has as its only purpose the encouragement of orderly growth and the protection of each family's property investment. And it should be adopted in January to avoid delaying the scheduled opening of Southwestern Illinois University.

### Caliber Of Public Officials Directly Affects Economic Welfare Of Citizens

One of the most thought-provoking of the 27 business review articles published by the Press-Record today is the one written by John McBride, Union Starch and Refining Co. vice-president and general manager. We urge that its contents be studied by all local citizens.

We agree with most of his reasoning, for lack of proper governmental leadership is a severe handicap to any community hoping to grow and progress. We would add that the criticism does not apply to many Quad-City governmental bodies, and that similar problems are found in countless cities throughout the nation. But the stern warning should be heeded by the officials who are at fault, and by voters if the officials do not change their attitudes.

McBride details Granite City aldermen's failure to "carry out the mandates of the people... and to take other progressive steps." Citing negative, non-constructive stands, he makes it clear that these can harm the economy of the local area and who reside or work here. Already, Union Starch has dropped plans to double its local operations and has halted all capital expenditures here. Employment will not be increased, and what expansion becomes necessary will take place elsewhere.

While he views Granite City as rapidly sliding downhill, he notes that such an outlook would be drastically altered by election of outstanding municipal leaders—a task to which everyone can and should dedicate his efforts in the coming months. The future welfare of each family depends upon it, for there is no middle ground; when there is no progress, there is decline and decay.

### New Program Will Trim Cost Of Operating County Jail

A county economy move that is showing results already is the new sheriff's program to reduce tenancy of the county jail—not to exclude law violators but to seek assignment of long-term prisoners to the state penitentiary, which has more adequate confinement and recreational facilities.

From 61 prisoners on Sheriff Fraundorf's first day in office, the number has dropped into the 30s. Further reductions are possible as the county weeds out those who break the law merely to use the ancient county jail as a "hotel" during cold weather.

At a \$25.46 average cost per day, the expenditure has been substantial. Judging by the present tenancy of 47.4 during June, July and August. Whether the saving is used for budget trimming or for equipment and manpower, county residents should benefit.

### No Basis For Halting Use Of Polio Vaccine

The "extremely light risk" involved in taking oral polio vaccine, reported by the U. S. surgeon general and a special advisory committee, does not alter the simultaneous conclusion that the oral and injected vaccines provide weapons which eventually can completely eliminate the crippling illness.

It would be unwise to halt reports, waiting candidly to include all possible eventualities, curtails vaccinations to the extent that polio again flourishes.

Among many millions of people, there have been a few in which circumstantial evidence indicates paralytic polio has resulted from Sabin vaccine. In three instances, a vaccinated person apparently passed on the virus to another individual with whom contact had been made.

Even more startling figures are the reduction in cases from 58,000 a decade ago to 650 throughout the nation in 1962.

In summary, a study covering several months points out there is "no significant hazard"; there also is a very slight risk in current methods of treating or protecting against certain ailments.

### No New State Taxes Proposed, No New Local Sales Taxes Needed

Governor Kerner's comment that he proposes no new or increased state taxes for 1963 is encouraging to those who support the effort to reduce Illinois tax dollars go farther through weeding out waste and fraudulently-obtained financial aid.

We hope legislators also resist any renewed attempt by cities and counties to get around the law by doubling their half-cent sales taxes. We repeat the view expressed here in the previous biennium that this would hurt more than it would help, through driving a wedge between municipal and county cooperation.

Officials of some counties actively oppose extension of city boundaries where there is urban growth, on the basis of their loss of county sales tax revenue. But since many public services can be provided only by cities, such a situation creates artificial pressure against what would be best and cheapest for the new neighborhoods.

This problem, stemming directly from 1955 and 1959 legislation, could be made worse by expansion of the sales tax in 1963.

## SAFEGUARD YOUR HEALTH

A PUBLIC SERVICE OF THE ILLINOIS STATE MEDICAL SOCIETY

### TREATMENT, EXERCISE

#### GAY BASE BURSTIS

Ever suffer a sharp, severe pain in the shoulder after pinning, plastering, throwing or some other unusual, repetitive motion of the arm? Chances are your doctor told you it was bursitis.

A painful condition that takes hundreds of Americans off the job every day, bursitis is an age-old disease of housewives, factory workers, athletes and many others whose jobs require a lot of unusual arm movements.

Though it may affect other parts of the body in which case it may be known as "tennis elbow" or "housemaid's knee" among other terms—bursitis occurs primarily in the shoulder area.

In many cases, the pain is so intense that afflicted persons cannot even sleep without the use of pain relievers. Movement creates such anguish that the victim does everything possible to avoid the pain.

What is bursitis? Doctors describe it as an inflammation of the bursa, a small sac situated between the bone and tendon which contain a lubricating fluid, which acts as a "cushion" or "ride" with a minimum of friction. There are 26 such bursae located throughout the body.

When the bursa becomes inflamed, its lubricating fluid is thick, thus restricting movement and causing pain in the joint.

### Common Possible Causes

Infection, as well as injury or trauma, can cause bursitis. Chronic infection in the shoulder and throat have been responsible for creating secondary infections in a bursa, particularly the one located in the shoulder.

How does one know when he has bursitis? In severe cases, even without working the shoulder—he will experience excruciating pain in the shoulder region.

The patient is advised to take aspirin, rest the arm in a sling and employ frequent applications of heat—hot compresses and towels—for the first day or so.

If the pain persists, see a doctor, for serious damage may result if the condition is permitted to continue untreated.

If the condition responds to treatment—and it usually does—it is advisable to exercise the shoulder joint as soon as possible. Very often, the exercise creates adhesions. Lack of exercise tends to increase stiffening and produces a permanent disability.

Recent years have brought forth new drugs which are sometimes used to assist in the use of x-ray has proved advantageous in some instances. However, the use of x-ray without the sac through a syringe needle indeed, sometimes the complete surgical removal of the bursa or sac itself is essential.

When the bursa is inflamed, its lubricating fluid is thick, thus restricting movement and causing pain in the joint.

### TAX CUT CAN EASE UNEMPLOYMENT PROBLEM

To the Editor:

It is the duty of every American citizen to support President Kennedy in his proposed tax cut.

Also, to demand that state legislators reduce wasteful spending and abolish the tax on state sales tax. The sales tax was set up to finance the relief program in the early 1930s, but since then it has become a political football.

Income, excise, luxury, sales and personal property taxes were abolished, our present recession and unemployment would fall apart in 90 days.

Eliminate present subsidies, foreign giveaways, waste, foreign expenses, vacation good will tours; tighten up present immigration laws; and restrict importing of competitive merchandise now paralyzing our markets.

Freeze wages and prices or lower them. Restrict present massive farm production by major land-grabbing and leasing companies which farm by the sharecropper method; this would end farm tenancy and the resulting poverty.

We elect officials to conduct public business, not to spend their time and our tax money entertaining foreign dictators with socialist minds.

To stall a recession, all we need is purchasing power. Give the people the money they work for and watch markets grow. Reverse psychology will change the present labor market status. Write your congressman and senators.

JOHN B. MOSS,  
2012 Omaha street.

## Police Chief Cautions Drivers Over New Year

National Safety Council statisticians have predicted that tabulating the year-end holiday accident toll at 6 p.m. Friday and will continue until midnight Tuesday. It was noted today by Chief of Police Raymond Willard.

"Last year 450 Americans were killed in traffic accidents during the 78-hour New Year's weekend," he said. "This year's weekend of New Year's Eve and last 102 hours, making it likely that well over 500 street and highway deaths will be recorded."

Chief Willard said every available traffic officer will put in long hours this weekend, doing his best in traffic supervision and rendering assistance to disabled motorists.

"But the heartbreak in his job comes when he has to remove injured victims from auto wrecks," he cautioned. "In many instances, collisions and rollovers could have been prevented if the driver had been sober and sensible."

### Optimist Clubs' Tree Sale Was Successful

B. C. "Tip" O'Neill, chairman of the Optimist Club of Granite City, said today that the Christmas tree sale, held last Thursday at the advance ticket price of \$1.00, was a success.

Registration forms may be secured from any post office, but must be completed and returned to the post office by January 1. Registration forms may be secured from any post office, but must be completed and returned to the post office by January 1.

George Frangoulis, manager of the Granite City office of Dempsey & Tegeler Co., was the guest speaker. The meeting was at the Dempsey & Tegeler Co. office.

He said predictions for 1963 business are good. Research and development increased from \$5,000,000,000 in 1962 to \$10,000,000,000 in 1963.

An increase in the income of the "over \$5000 a year" group of \$100,000,000,000 in 1962 to \$150,000,000,000 in 1963 is expected.

He said the income of the "over \$5000 a year" group of \$100,000,000,000 in 1962 to \$150,000,000,000 in 1963 is expected.

## Alien Registration Required In January

All aliens in the United States are required to register during January. Immigration and Naturalization authorities reminded today.

Registration forms may be secured from any post office, but must be completed and returned to the post office by January 1. Registration forms may be secured from any post office, but must be completed and returned to the post office by January 1.

All alien—other than accredited diplomats, those admitted to the U. S. as agricultural workers and those admitted to the U. S. as international organizations are required to register.

Any alien who willfully fails to report is subject to fines, a prison sentence and deportation. An alien temporarily out of the country may register within 10 days of his return.

Postal officials in Granite City, Madison and Venice said a total of about 400 aliens registered last year.

## Hillmer Home On Michigan Ave. Wins Lighting Contest

Winners of the Granite City Jaycees Christmas lighting contest were announced today by Chairman Donald Young, who said that William Hillmer Jr., 3245 Colgate place, had won the contest.

The second prize of \$50 was won by Harry E. Combs, 2928 Harding Blvd.; Ray Leach, 2928 Colgate place; Edward Seib, 2715 Johnson road; and Merle Whitaker, 2493 Western avenue.

Combs was on a point system with 30 points for artistic merit, 20 points for originality, 30 points for lighting and 20 points for ingenuity.

The contest was sponsored by the Jaycees and the Illinois Power Co.

The awards are made to freshmen students on the basis of their academic record and extracurricular activities. Hoover, a mechanical engineering major, is active in school athletics and is a member of the Tech Co-op Club on the Rock campus.

## Vandals Flood Home, Scatter Flooding, Books

Vandals flooded the home of Mrs. Betty Smith, 2410 Edison avenue, and scattered books, clothing and books on the floor.

The vandals were caught by police on Thursday afternoon. The vandals were caught by police on Thursday afternoon.

## Police Emergency Call

Granite City police were called at 4 a.m. Friday on an unusual mission to aid a dog giving birth to two pups.

The dog, a female, was reported the dog was in difficulty and that both puppies were in danger.

The emergency call was to a home in the 2200 block of Edison avenue.

Granite City, Illinois  
Attorneys for Plaintiff  
34-12-24-31-17

**NOTICE OF CLAIM DATE**  
The undersigned hereby notifies all persons that the First Monday in February, 1963 is the CLAIM DATE for the estate of PHINE LACHNER, Deceased, who died on or about 1957, at Madison County, Illinois, and that claims may be filed against said estate on or before said date without issuance of summons.

Dated this 19th day of December, 1962.

ANDREW GASPAROVIC JR.,  
Administrator with will.

Attest:  
DANIEL H. CLARK,  
Probate Clerk.

Wetsteyne and Jimmy Spence  
attorneys for the Plaintiff  
at Representative Weber spoke  
and presented gifts to Mrs. Her-  
bert and Richard Spence and  
Clark for three years service in  
conducting the charter presentation  
was acknowledged by Elmer Eickert  
who gave the charter to the  
representatives. Bob Albert, Herb  
Herbert and Richard Spence  
and Dan Clark were present and  
presented the charter to Mrs.  
Spence.

The group sang Christmas  
carols. Dens Two and Three  
held a Christmas pageant, di-  
rected by Mrs. Spence. The  
songs taking part were Dennis  
Harper, David Westbrook, Gary  
Spence and Dan Clark.

**NOTICE**  
Notice is hereby given that sealed bids will be received by the Highway Board of the City of Madison County Board of Supervisors, at the County Courthouse, Madison, Tennessee, by the Superintendent of Highways and the Highway Board, at the City of Madison County Courthouse, Madison, Tennessee, until 11 o'clock a.m. on Thursday, January 10, 1963, for the purchase of the following equipment:  
1. One 1962 model 2-ton truck, chassis and cab with running boards; wheelbase approximately 120 inches; 6-cylinder engine to have minimum 250 cubic inches displacement; 12-volt, dry-type air cleaner; 12-volt battery; 12-volt generator; controlled governor; 6000 pound

[illegible][illegible][illegible]

IN cubic inch displacement; oil filter; dry-type air cleaner; 12-inch heavy duty clutch; velocity controlled governor; 8000 pound front suspension; 1000 pound 2-speed rear axle; approximate 3500 pounds front spring; approximate 2000 pound rear suspension; approximate 2000 pound auxiliary spring; heavy duty brakes with approximately 10 square inch braking area; fresh air type heater and defroster; 2-speed electric windshield wiper; electric outside rear view mirror; speed combination bid will be considered unless the bidder has covered fender on the single frame specification of the combination.

The bidder is to make the necessary modifications to their equipment and indicate as to delivery dates.

The right is reserved to reject any or all bids.
